Welcome

Dear Friends,

Welcome to IGBC's Green Building Congress 2024!

It is both a delight and an honour to welcome you to CII-IGBC's Green Building Congress 2024, here in the Silicon Valley of India - Bengaluru, Karnataka. Known for its innovative spirit and rich cultural heritage, Karnataka provides the ideal backdrop for our shared mission of advancing the green and net zero agenda in India's built environment.

As we come together for this 22nd edition of our annual flagship event, we celebrate the significant progress that has positioned India among the top three nations globally with the largest registered green building footprint, a remarkable achievement made possible by the committed dedication of champions like yourselves. Your continued support, guidance, and active participation are key to driving India's emergence as a global leader in the green and net zero building movement. Together, we aim to enhance this impact and solidify our global standing in green buildings.

This year's theme, "Advancing Net Zero in Buildings and Built Environment," reflects IGBC's vision for a sustainable future. The Green Building Congress 2024 is designed to showcase innovative net zero strategies, new business opportunities, pioneering technologies, and sustainable solutions to all building sector stakeholders.

Your presence is more than participation, it is a commitment to our collective mission of creating a greener and more sustainable future for both people and the planet. We encourage you to engage with industry leaders, innovators, and fellow green building advocates from across the country and around the world. Collaborate, exchange ideas, and forge partnerships that will accelerate our journey towards India's commitment for achieving Net Zero carbon emissions by 2070.

At IGBC, we thank you for being part of this inspiring journey. Wishing you a productive, insightful, and memorable experience here in Bengaluru, India!

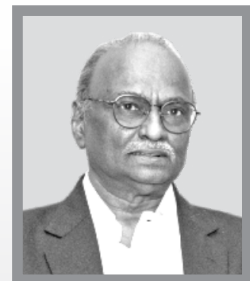

Warm Regards,

B Thiagarajan

Confederation of Indian Industry

ABOUT CII

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

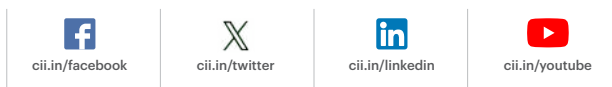

As India strategizes for the next 25 years to India@100, Indian industry must scale the competitiveness ladder to drive growth. It must also internalize the tenets of sustainability and climate action and accelerate its globalisation journey for leadership in a changing world. The role played by Indian industry will be central to the country's progress and success as a nation. CII, with the Theme for 2023-24 as 'Towards a Competitive and Sustainable India@100: Growth, Inclusiveness, Globalisation, Building Trust' has prioritized 6 action themes that will catalyze the journey of the country towards the vision of India@100.

With 65 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 350 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.

About Indian Green Building Council (IGBC)

The Indian Green Building Council (IGBC), part of the Confederation of Indian Industry (CII) was formed in the year 2001. The vision of the council is, "To enable a sustainable built environment for all and facilitate India to be one of the global leaders in the sustainable built environment by 2025".

The council offers a wide array of services which include developing new green building rating programmes, certification services and green building training programmes. The council also organises Green Building Congress, its annual flagship event on green buildings.

The council is committee-based, member-driven and consensus-focused. All the stakeholders of construction industry comprising of architects, developers, product manufacturers, corporate, Government, academia and nodal agencies participate in the council activities through local chapters. The council also closely works with several State Governments, Central Government, World Green Building Council, bilateral multi-lateral agencies in promoting green building concepts in the country.

Till date, 14,630 projects are registered with IGBC's Green Building Rating Programs amounting to a footprint of 12.816 billion sq ft. These projects are coming up in both public and private sectors that include government buildings, IT parks, corporate offices, schools, colleges, banks, factories, residential complexes, airports, SEZs, townships, stadiums etc. IGBC's share of the green building footprint in the country is more than 90%.

IGBC has launched the following different green rating programs so far to suit all types of construction projects:

IGBC Green Residential

- ▲ IGBC Green Homes
- ▲ IGBC Green Residential Societies
- ▲ IGBC Green Affordable Housing
- ▲ IGBC NEST

IGBC Green Commercial

- ▲ IGBC Green New Buildings
- ▲ IGBC Green Existing Buildings
- ▲ IGBC Green Healthcare
- ▲ IGBC Health and Well-being
- ▲ IGBC Green Data Center
- ▲ Data Centres
- ▲ IGBC Green Service Buildings
- ▲ IGBC Green Resorts

IGBC Green Industrial

- ▲ IGBC Green Factory Buildings
- ▲ IGBC Green Logistics Parks and Warehouses

Other Building Typologies

- ▲ IGBC Green Schools
- ▲ IGBC Green Campus
- ▲ IGBC Green Interiors
- ▲ IGBC Green Place of Worship

IGBC Green Built Environment

- ▲ IGBC Green Townships
- ▲ IGBC Green Cities
- ▲ IGBC Green Existing Cities
- ▲ IGBC Green Hill Habitat
- ▲ IGBC Green Mass Rapid Transit System
- ▲ IGBC Green Existing Mass Rapid Transit System
- ▲ IGBC Green Railway Stations
- ▲ IGBC Green High Speed Rail
- ▲ IGBC Green Landscapes
- ▲ IGBC Green Villages

IGBC Net Zero

- ▲ IGBC Net Zero Energy Buildings
- ▲ IGBC Net Zero Water Buildings
- ▲ IGBC Net Zero Waste Rating System

The vision of IGBC is to enable a sustainable built environment for all and facilitate India to be one of the global leaders in sustainable built environment by 2025. IGBC is on course to achieve this with the support of 2,260 (229 Founding Members) organizational members spread across 30 chapters in the country.

To seed the ideas of green building concepts in the minds of young people, IGBC has started Student chapters in various architectural and engineering colleges. As of today, there are more than 373 student chapters in leading institutes across the country.

In order to develop service providers equipped to facilitate green building projects, IGBC organizes training programs and conducts the Accredited Professional (AP) Examination. Till date, 7,563 individuals have qualified the IGBC AP exam.

IGBC-rated projects has also been recognized by Central and several State government agencies for incentives like Ministry of Environment, Forests & Climate Change (MoEFCC), Small Industries Development Bank of India (SIDBI), state government agencies in Punjab, Rajasthan, Maharashtra, Uttar Pradesh, Gujarat, Jharkhand, Haryana, Himachal Pradesh, Tamil Nadu, Kerala, etc.

IGBC is a founding member of the World Green Building Council. IGBC's efforts have resulted in India being positioned among the top 3 countries in the world today in terms of registered green building footprint. IGBC-rated buildings have repeatedly proved their operational excellence and exemplary sustainability quotient at various international platforms.

IGBC, on the occasion of Earth Day last year (22 April 2021), had launched the 'Mission on Net Zero' with a vision to 'facilitate India in becoming one of the foremost countries in transforming to Net Zero by 2050'. The IGBC Mission is in alignment with our Hon'ble Prime Minister's pledge that India would cut its emissions to net zero by 2070. This IGBC Mission, which is a National campaign, would result in multi-fold benefits such as: Reduction of CO2 emissions, Deployment of multiple technologies, Adoption of Cleaner fuels, New employment opportunities, etc.

IGBC's Mission on Net Zero has thus far witnessed the commitment from 300+ leading organisations from the Indian building sector IGBC has developed the following guidelines which facilitate the adoption of Net Zero concepts:

- IGBC Net Zero Energy Buildings Rating
- IGBC Net Zero Water Rating
- IGBC Net Zero Waste Rating
- IGBC's Guidance Framework for Net Zero Carbon Buildings

IGBC is based out of the CII Green Business Centre in Hyderabad, India. This was the 1st 'Platinum' rated green building in the country. This building has world-wide recognition and is also Net Zero Energy Platinum-rated building.

India's green buildings are truly National by choice but Global in performance.

The 'green' challenge is unending opportunity

L&T-Cloudfiniti Data Center,
Kanchipuram

Technology Centre 4, Chennai

Yashobhoomi, Dwarka, New Delhi

For us at L&T, ecology and economy go hand in hand. Being in the business of technology, engineering, and construction, we are ever mindful of being sustainable in our operations and, at the same time, identify business opportunities in the challenges posed by climate change.

We construct 'green', eco-friendly, water & energy-efficient buildings and other structures. In our quest to go green, we involve our partners too as we strive to live up to our commitment of becoming Water Neutral by 2035 & Carbon Neutral by 2040.

We are addressing the dilemma of finite resources and infinite needs like water, experimenting with green hydrogen and helping to find new, innovative ways of tapping the boundless energy of the sun to light up our world.

Through the combined efforts of different engineering disciplines and deploying the right mix of cutting-edge technology and innovative construction methods, we are engineering a green and sustainable future.

ARMSTRONG DESIGN PRIVATE LIMITED

#18, Lewis Workspace, 3rd Floor, Off Millers-Nandidurga Road, Jayamahal CBD,

Benson Town, Bengaluru, Karnataka, 560 046, INDIA

Email : akumar@armstrongfluidtechnology.com

Website : www.armstrongfluidtechnology.com

Main Area of Business	<p>Armstrong Fluid Technology specializes in delivering intelligent fluid flow equipment and control solutions that optimize building energy efficiency and sustainability. Their core areas of business include:</p> <ol style="list-style-type: none"> Fluid Flow Systems: Armstrong is a global leader in the design and manufacturing of fluid flow systems used in various industries and building applications. These systems ensure efficient movement of fluids, contributing to energy optimization and reduced operational costs. Variable Speed & Design Envelope Pumps: Armstrong's high-performance pumps provide demand-based control, allowing for precise adjustments to fluid flow and heat transfer, improving HVAC efficiency and lowering energy consumption. Integrated Plant Packages: These are fully integrated solutions combining hardware and controls intelligence to optimize entire building mechanical systems, enhancing performance, and offering flexibility in design, construction, and operation. Heat Transfer Systems: Armstrong's expertise in heat transfer ensures optimal energy usage in processes that require heating and cooling, contributing to sustainable and energy-efficient solutions. Fire Pumps & Systems: Armstrong provides reliable fire safety systems for buildings and industries, offering peace of mind with systems designed for critical safety applications. Intelligent Connected Building Solutions: Utilizing advanced technologies such as IoT, edge computing, and machine learning, Armstrong's connected building solutions enable real-time performance monitoring, energy optimization, and lifecycle management of mechanical systems. <p>The company's offerings cater to a wide range of industries, including commercial buildings, pharmaceuticals, data centers, automobiles, and infrastructure. By focusing on these core business areas, Armstrong Fluid Technology ensures long-term sustainability and energy efficiency for its global clientele.</p>
Organization Profile	<p>Company Size: 1,001-5,000 employees Headquarters: Toronto, Ontario Founded: 1934</p> <p>Overview: Armstrong Fluid Technology is a renowned innovator in the design, engineering, and manufacturing of intelligent fluid flow equipment, control solutions, and optimization technologies. With nine manufacturing facilities across four continents and a global workforce, Armstrong is dedicated to providing cutting-edge solutions for building energy efficiency and sustainability.</p> <p>Core Competencies: Demand-based control, Digitalization, Fluid flow, and Heat transfer are at the heart of Armstrong's expertise. By combining high-quality hardware, controls intelligence, and related services, Armstrong offers fully integrated building energy solutions. These solutions ensure optimum building performance, maximum flexibility in design, construction, and operation, while minimizing project and operating risks, as well as installed lifecycle costs.</p> <p>Leading the Digitalization Shift: Armstrong leads the industry in the digitalization and integration of fluid-flow systems. Leveraging advanced solutions such as edge computing, IoT, machine learning, digital twin technology, and demand-based control, Armstrong provides efficient and sustainable solutions for building mechanical systems.</p> <p>Unique Value Proposition: Focusing on HVAC, Plumbing, Gas Transmission, and Fire Safety applications, Armstrong delivers energy-efficient, cost-effective solutions, and performance management services worldwide. By approaching energy optimization as a holistic challenge and advancing the practice of full lifecycle management, Armstrong ensures long-term sustainability and efficiency.</p> <p>Recognition and Awards: In May 2021, Armstrong Fluid Technology was honoured with a Queens Enterprise Award for Sustainability, recognizing its leadership in energy efficiency, carbon footprint reduction, and environmental stewardship. The company has also been consistently recognized as one of the Best Managed Companies, holding Platinum status in the program for 20 years.</p> <p>Diversity and Inclusion: Armstrong values diversity and inclusivity, fostering a workplace that celebrates differences in ethnicity, origin, and gender. The company believes that diversity strengthens teams and drives innovation, contributing to its success and growth.</p> <p>Products and Services: Armstrong's product range includes Fluid Flow Systems for building applications, Variable Speed & Design Envelope Pumps, Integrated Plant Packages, Heat Transfer systems, Fire Pumps & Systems, and Intelligent Connected Building Solutions. These solutions cater to various markets and industries, including commercial buildings, pharmaceuticals, data centers, automobiles, process industries, solar, semiconductor, green hydrogen, battery manufacturing, and infrastructure.</p> <p>Global Presence: Armstrong serves markets across North America, Latin America, Europe, the Middle East & Africa, India, China, Asia & Australia. The company has a robust network of sales representatives and channel partners in these regions and utilizes online and digital marketing activities to reach its global audience.</p> <p>Customer Segments: Armstrong caters to a diverse range of customer segments, including commercial buildings such as offices, IT campuses, hotels, healthcare facilities, and educational institutions.</p> <p>Additionally, the company serves various industries and infrastructure segments, including airports and metro systems. By consistently delivering innovative solutions and fostering a commitment to sustainability and diversity, Armstrong Fluid Technology remains a trusted leader in the manufacturing industry.</p>

BANGALORE APARTMENTS FEDERATION

1st Floor, 27th Main, Sector 1, 13th Cross, HSR Layout, Bengaluru 560102

Email : info@baf.org.in

Website : www.baf.org.in

<p>Main Area of Business</p>	<p>Bangalore Apartments' Federation (BAF) is a Federation representing the interests of apartment associations & apartment residents across Bengaluru. Nearly 1,300 apartment resident welfare associations of apartment and villa communities across Bengaluru are members of BAF representing nearly 300,000 apartment-resident households and more than a million citizens either reside or work within these communities.</p>
<p>Organization Profile (In less than 100 words)</p>	<p>BAF has been running multiple programs and campaigns to support their member communities become resource efficient and environmentally sensitive – this is encapsulated under a “BAF HASIRU” strategy, which aims to bring together all these efforts to an integrated, scalable, collaborative approach. Key motivations to the construction of this strategy include:</p> <ul style="list-style-type: none"> • Rapid change in the urban environmental and climate profile • Aggressive unplanned urbanization leading to constraints in the availability, cost and quality of natural resources • Changes in environmental policies coupled with government’s reducing ability to be the guarantor and supplier of public resources/services – move towards self-sustainability • Advancement in sustainability-focused technologies, bringing better and affordable solutions • Collective influence and demand of the apartment resident community coupled with growth of discerning buyer audience/market
<p>Products Manufactured / Services Offered (In less than 40 words)</p>	<ul style="list-style-type: none"> • RESOURCE EFFICIENT - Efficient buildings run in an environmentally and economically sustainable manner • CLIMATE CONSCIOUS - Discerning home-buyers, owners and residents who are aware and educated about climate change and consequences • COMMUNITY INFLUENCERS – The apartment-resident community as a champion of thought, action and leadership motivating other communities within Bengaluru and other cities

HORIZON INDUSTRIAL PARKS

15 floor of Tower-1, Unit No. 1501-B, One World Centre, Senapati Bapat Marg, Prabhadevi, Mumbai, Mumbai, Maharashtra, 400013

Email : contactus@hiparks.com

Website : www.hiparks.com

Main Area of Business	Industrial Real estate Developer
Organization Profile	<p>Horizon Industrial Parks is a logistics platform in India owned by Blackstone Real Estate funds. Since its inception in January 2022, Horizon Industrial Parks has built a portfolio of 38 Grade A industrial and logistics parks spread across more than 1,800 acres and with an area of 44 million square feet, which are in 10 key markets in India (including affiliate parks and in-city warehouses)- making it the fastest growing industrial and warehousing developer in India.</p> <p>Our parks are built to global standards of institutional players, with world-class infrastructure, standardised specifications and facilities designed to make the work environment more productive.</p>
Products Manufactured / Services Offered	<p>At Horizon Industrial Parks, we consistently create versatile, built-to-suit industrial spaces tailored to meet our clients' specific needs. Our ready-to- move-in facilities feature a 12-meter clear height, which can be customised for unique industries. The roofs are designed with insulation for temperature control and skylights for natural lighting. Inside, we use densified flooring that can handle heavy loads, equipment and machinery. In the exterior, we prioritise easy access for passenger as well as commercial vehicles with well-maintained roads, wide concrete aprons, and designated parking spaces.</p> <p>Horizon Industrial Parks is committed to ensuring that all assets in our portfolio are globally compliant. This has driven us to build facilities at par with NBC requirements with respect to green cover, services, and fire safety. Additionally, having started in year-one with a significant amount of pre-functional assets, we have concentrated on upgrading these facilities to make them more sustainable and efficient. Simultaneously, any new facility constructed is built to meet the eligibility criteria for IGBC certifications. Notably, we have gotten three of our parks IGBC platinum certified, with processes ongoing for the remaining parks with a target of Dec 2025 for all operational parks.</p> <p>Being a highly volatile space of work, our facility offers immediate first-aid assistance in the Facility Management Office as well as have a 24 x 7 ambulance posted on premises for rapid response to medical emergencies, ensuring immediate and effective care within the industrial park</p> <p>On a regular basis our facilities management teams conduct supervision audits for all the power, water and operational utilities across the parks to ensure their upkeep and maintenance. These include Carbon & GHG Audits/ Studies, Energy Audits, and Water Audits done across all operational parks.</p>
