Do Good, Feel Good: Embrace Green Choices for a
SUSTAINABLE FUTURE

Show Directory 2025

Premier Supporters

Welcome

Dear Friends and Green Building Champions,

Welcome to 23rd edition of IGBC's Green Building Congress 2025!

It is both a delight and an honour to welcome you to CII-IGBC's Green Building Congress 2025, here in the dynamic and enterprising city of Mumbai. A global financial hub and a city known for its resilience, creativity, and forward-looking spirit, Mumbai offers the perfect setting for India's largest platform on green buildings and sustainability.

As we gather for the 23rd edition of our annual flagship event, we celebrate remarkable progress that has placed India among the top two countries in the world with the largest registered green building footprint. This achievement showcases vision, passion and consistent commitment of champions like yourselves. Your continued support, guidance, and active participation are key to strengthen India's global leadership in the green and net zero movement.

This year's theme, "Green Shifts for Greener Tomorrows – Do Good, Feel Good," reminds us that sustainability is about steps that begin with simple, meaningful choices we make every day. When we do good, for our buildings, our cities, our environment, and our people, we tend to feel good with each action contributing to cleaner air, healthier communities, and a better lifestyle for the coming generation. These collective green shifts, however big or small, are what eventually shape greener tomorrows.

The Green Building Congress 2025 has been curated to highlight emerging trends, insightful perspectives, business opportunities and explore over 1,000+ green building products, materials, and technologies at the EXPO that are redefining India's built environment. Over the next few days, we encourage you to engage with policymakers, industry leaders, solution providers and fellow green building advocates from across India and around the world. This is your platform to spark ideas, strengthen collaborations, and accelerate our collective journey towards a sustainable and climate-resilient India.

On behalf of IGBC, we thank you for being part of this inspiring journey. Your presence here today is a reaffirmation of our shared mission to build a greener, healthier and better India.

Wishing you a productive, insightful, and memorable experience here in Mumbai, India!

Warm Regards,

B Thiagarajan

National Chairman,
IGBC & Chairman,

Confederation of Indian Industry

About CII

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9,000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India strategizes for the next 25 years to India@100, Indian industry must scale the competitiveness ladder to drive growth. It must also internalize the tenets of sustainability and climate action and accelerate its globalisation journey for leadership in a changing world. The role played by Indian industry will be central to the country's progress and success as a nation. CII, with the Theme for 2023-24 as 'Towards a Competitive and Sustainable India@100: Growth, Inclusiveness, Globalisation, Building Trust' has prioritized 6 action themes that will catalyze the journey of the country towards the vision of India@100.

With 65 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 350 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.

SHAPING INDIA'S GREEN BUILDING FUTURE, SINCE 2001

About Indian Green Building Council (IGBC)

The Indian Green Building Council (IGBC), part of the Confederation of Indian Industry (CII) was formed in the year 2001. The vision of the council is, "To enable a sustainable built environment for all and facilitate India to be one of the global leaders in the sustainable built environment by 2025".

The council offers a wide array of services which include developing new green building rating programmes, certification services and green building training programmes. The council also organises Green Building Congress, its annual flagship event on green buildings.

The council is committee-based, member-driven and consensus-focused. All the stakeholders of construction industry comprising of architects, developers, product manufacturers, corporate, Government, academia and nodal agencies participate in the council activities through local chapters. The council also closely works with several State Governments, Central Government, World Green Building Council, bilateral multi-lateral agencies in promoting green building concepts in the country.

Till date, 17,060 projects are registered with IGBC's Green Building Rating Programs amounting to a footprint of 14.75 billion sq ft. These projects are coming up in both public and private sectors that include government buildings, IT parks, corporate offices, schools, colleges, banks, factories, residential complexes, airports, SEZs, townships, stadiums etc. IGBC's share of the green building footprint in the country is more than 90%.

IGBC has launched the following different green rating programs so far to suit all types of construction projects:

IGBC Green Residential

- ▲ IGBC Green Homes
- ▲ IGBC Green Residential Societies
- ▲ IGBC Green Affordable Housing
- ▲ IGBC NEST

IGBC Green Commercial

- ▲ IGBC Green New Buildings
- ▲ IGBC Green Existing Buildings
- ▲ IGBC Green Healthcare
- ▲ IGBC Health and Well-being
- ▲ IGBC Green Data Center
- ▲ Data Centres
- ▲ IGBC Green Service Buildings
- ▲ IGBC Green Resorts

IGBC Green Industrial

- ▲ IGBC Green Factory Buildings
- ▲ IGBC Green Logistics Parks and Warehouses

Other Building Typologies

- ▲ IGBC Green Schools
- ▲ IGBC Green Campus
- ▲ IGBC Green Interiors
- ▲ IGBC Green Place of Worship

IGBC Green Built Environment

- ▲ IGBC Green Townships
- ▲ IGBC Green Cities
- ▲ IGBC Green Existing Cities
- ▲ IGBC Green Hill Habitat
- ▲ IGBC Green Mass Rapid Transit System
- ▲ IGBC Green Existing Mass Rapid Transit System
- ▲ IGBC Green Railway Stations
- ▲ IGBC Green High Speed Rail
- ▲ IGBC Green Landscapes
- ▲ IGBC Green Villages

IGBC Net Zero

- ▲ IGBC Net Zero Energy Buildings
- ▲ IGBC Net Zero Water Buildings
- ▲ IGBC Net Zero Waste Rating System

The vision of IGBC is to enable a sustainable built environment for all and facilitate India to be one of the global leaders in sustainable built environment by 2025. IGBC is on course to achieve this with the support of 2,575 (257 Founding Members) organizational members spread across 32 chapters in the country.

To seed the ideas of green building concepts in the minds of young people, IGBC has started Student chapters in various architectural and engineering colleges. As of today, there are more than 397 student chapters in leading institutes across the country.

In order to develop service providers equipped to facilitate green building projects, IGBC organizes training programs and conducts the Accredited Professional (AP) Examination. Till date, 8,598 individuals have qualified the IGBC AP exam.

IGBC-rated projects has also been recognized by Central and several State government agencies for incentives like Ministry of Environment, Forests & Climate Change (MoEFCC), Small Industries Development Bank of India (SIDBI), state government agencies in Punjab, Rajasthan, Maharashtra, Uttar Pradesh, Gujarat, Jharkhand, Haryana, Himachal Pradesh, Tamil Nadu, Kerala, etc.

IGBC is a founding member of the World Green Building Council. IGBC's efforts have resulted in India being positioned among the top 3 countries in the world today in terms of registered green building footprint. IGBC-rated buildings have repeatedly proved their operational excellence and exemplary sustainability quotient at various international platforms.

IGBC, on the occasion of Earth Day last year (22 April 2021), had launched the 'Mission on Net Zero' with a vision to 'facilitate India in becoming one of the foremost countries in transforming to Net Zero by 2050'. The IGBC Mission is in alignment with our Hon'ble Prime Minister's pledge that India would cut its emissions to net zero by 2070. This IGBC Mission, which is a National campaign, would result in multi-fold benefits such as: Reduction of CO2 emissions, Deployment of multiple technologies, Adoption of Cleaner fuels, New employment opportunities, etc.

IGBC's Mission on Net Zero has thus far witnessed the commitment from 300+ leading organisations from the Indian building sector IGBC has developed the following guidelines which facilitate the adoption of Net Zero concepts:

- IGBC Net Zero Energy Buildings Rating
- IGBC Net Zero Water Rating
- IGBC Net Zero Waste Rating
- IGBC's Guidance Framework for Net Zero Carbon Buildings

IGBC is based out of the CII Green Business Centre in Hyderabad, India. This was the 1st 'Platinum' rated green building in the country. This building has world-wide recognition and is also Net Zero Energy Platinum-rated building.

India's green buildings are truly National by choice but Global in performance.

LL We didn't build a garden in an airport. Instead, we built an airport in a garden. 77

For the Garden City's new airport terminal, that operates 100% on renewable energy, we first planted the seed of an 'inside out garden'.

We then nurtured it into a 70-acre terminal using eco-friendly building materials, featuring gardens at every turn, and weaving nature into the airport's architecture.

We took a leap away from convention towards sustainable construction.
