## ಸುಸ್ಥಿರ ಅಭಿವೃದ್ಧಿಗೆ ಹಸಿರು ಕಟ್ಟಡ ಅಗತ್ಯ: ಈಶ್ವರ ಖಂಡ್ರೆ

ಬೆಂಗಳೂರು : ಜಾಗತಿಕ ತಾಪಮಾನ ಏರಿಕೆ, ಹವಾಮಾನ ಬದಲಾವಣೆಯ ಕಾಲಘಟ್ಟದಲ್ಲಿ ಹಸಿರು ಕಟ್ಟಡ ಮಹತ್ವದ ಪಾತ್ರ ನಿರ್ವಹಿಸುತ್ತದೆ ಎಂದು ಆರಣ್ಯ, ಜೀವಿಕಾಸ್ ಮತ್ತು ಪರಿಸರ ಸಚಿವ ಈಶ್ವರ ಬಿ ಖಂಡ್ರೆ ಅಭಿಪ್ರಾಯಪಟ್ಟಿದ್ದಾರೆ. ಬೆಂಗಳೂರಿನಲ್ಲಿ ನಡೆಯುತ್ತಿರುವ 3 ದಿನಗಳ ಗ್ರೀನ್ ಬಿಲ್ಡಿಂಗ್ ಕಾಂಗ್ರೆಸ್ 2024 ಗ್ರೀನ್ ಎಕ್ಸ್ ಪೋ 22ನೇ ಅವೃತ್ತಿಯನ್ನು ಉದ್ಘಾಟಿಸಿ, ಮಾತನಾಡಿದ ಅವರು, ಸುಸ್ಥಿರ ಅಭಿವೃದ್ಧಿಗೆ ಅಗತ್ಯವಾದ ರೂಢಿಗಳನ್ನು ಅಳವಡಿಸಿಕೊಳ್ಳುವುದು ಇಂದಿನ ಅಗತ್ಯವಾಗಿದ್ದು, ಹಸಿರು ಕಟ್ಟಡವೂ ಇದರಲ್ಲಿ ಒಂದಾಗಿದೆ ಎಂದರು. ಮೂಲಸೌಕರ್ಯ ಸುಧಾರಣೆಯೂ ಆಗಬೇಕು, ಪ್ರಕೃತಿ ಪರಿಸರವೂ ಉಳಿಯಬೇಕು. ಈ ನಿಟ್ಟಿನಲ್ಲಿ ಪರಿಸರಕ್ಕೆ ಹೆಚ್ಚಿನ ಹಾನಿ ಅಗದಂತೆ ವಿಚ್ಛರ ವಹಿಸಬೇಕಾಗುತ್ತದೆ. ಕಟ್ಟಡ ನಿರ್ಮಾಣ ಕ್ಷೇತ್ರದಲ್ಲಿ ಹಸಿರು ಕಟ್ಟಡಗಳು ಈ ನಿಟ್ಟಿನಲ್ಲಿ ಪ್ರಮುಖ ಪಾತ್ರ ವಹಿಸುತ್ತವೆ ಎಂದರು.

ಹಸಿರು ಕಟ್ಟಡಗಳ ಬಗ್ಗೆ ಜನ ಜಾಗೃತಿ ಮೂಡಿಸುವ ಅಗತ್ಯವಿದೆ. ಭಾರತೀಯ ಹಸಿರು ಕಟ್ಟಡ ಮಂಡಳಿ ಈ ನಿಟ್ಟಿನಲ್ಲಿ ಶ್ರಮಿಸುತ್ತಿದೆ. ಹಸಿರು ಕಟ್ಟಡ ವಲಯದಲ್ಲಿ ಹೊಸ ಹೊಸ ಸಂಶೋಧನೆಗಳು ಆಗಬೇಕು, ಆ ಸಂಶೋಧನೆಗಳ ಫಲ ಎಲ್ಲರಿಗೂ ಅಗ್ಗದ ದರದಲ್ಲಿ ಲಭ್ಯವಾಗಬೇಕು ಆಗ ಮಾತ್ರವೇ ಇದು ಯಶಸ್ಸು ಕಾಣಲು ಸಾಧ್ಯ ಎಂದು ಅಭಿಪ್ರಾಯಪಟ್ಟರು. ಇಂಗಾಲದ ಹೊರಸೂಸುವಿಕೆಯನ್ನು ತಗ್ಗಿಸುವ ನಿಟ್ಟಿನಲ್ಲಿ ಹಸಿರು ಕಟ್ಟಡಗಳು ಪರಿಣಾಮಕಾರಿಯಾಗಿವೆ. ಗ್ರೀನ್ ಬಿಲ್ಡಿಂಗ್ ಕಾಂಗ್ರೆಸ್ ಈ ಬಗ್ಗೆ ಜನ ಜಾಗೃತಿ ಮೂಡಿಸಬೇಕು ಎಂದು

ಅವರು, 2050 ರ ವೇಳೆಗೆ ನಿವ್ವಳ ಶೂನ್ಯ ಹೊರಸೂಸುವಿಕೆಯನ್ನು ಸಾಧಿಸುವ ಮಹತ್ವದ ಹೆಜ್ಜೆಯಾಗಿ ಬೃಹತ್ ಬೆಂಗಳೂರು ಮಹಾನಗರ ಪಾಲಿಕೆ (ಬಿಬಿಎಂಪಿ) ಅಧಿಕೃತವಾಗಿ 'ಬೆಂಗಳೂರು ಹವಾಮಾನ ಕ್ರಿಯಾ ಮತ್ತು ಸ್ಥಿತಿತ್ವಾಪಕತ್ವ ಯೋಜನೆ' (ಬಿಸಿಎಪಿ) ಅನ್ನು ಪ್ರಾರಂಭಿಸಿದೆ ಎಂದು ತಿಳಿಸಿದರು. ಇಂದು ಆಹಾರದಲ್ಲಿ ಮಾಲಿನ್ಯವಿದೆ, ನೀರಿನಲ್ಲಿ ಮಾಲಿನ್ಯವಿದೆ, ಅಷ್ಟೇಕೆ ಜೀವನಾಡಿಯಾದ ಗಾಳಿಯಲ್ಲೂ ಮಾಲಿನ್ಯವಿದೆ. ಈ ಮಾಲಿನ್ಯ ನಿರಂತರವಾಗಿ ಜವಾಬ್ದಾರಿ ಎಲ್ಲರ ಮೇಲಿದೆ ಎಂದರು.

ಬೆಂಗಳೂರಿಗೆ ಇನ್ನಷ್ಟು ಉದ್ಘಾಟನೆ ಅಗತ್ಯ: ಬೆಂಗಳೂರಿಗೆ ಲಾಲ್ ಬಾಗ್, ಕಬ್ಬನ್ ಪಾರ್ಕ್ ನಂತರ ಇನ್ನೂ ಹಲವು ಉದ್ಘಾಟನೆಗಳ ಅಗತ್ಯವಿದೆ. ಈ ನಿಟ್ಟಿನಲ್ಲಿ ಯಲಹಂಕಿ ಬಳಿ ಈಗಾಗಲೇ 153 ಎಕರೆ ಭೂಮಿ ಗುರುತಿಸಿದ್ದು, ಈ ಮಾಸಾಂತ್ಯದೊಳಗೆ ಶಂಕುಸ್ಥಾಪನೆ ನೆರವೇರಿಸುವುದಾಗಿ ಈಶ್ವರ ಖಂಡ್ರೆ ತಿಳಿಸಿದರು. ಅದೇ ರೀತಿ 1960 ರ ದಶಕದಲ್ಲಿ ಎಚ್‌ಎಂಟಿಗೆ ನೀಡಲಾಗಿದೆ ಎನ್ನಲಾದ 443 ಎಕರೆ ಆರಣ್ಯ ಭೂಮಿಯನ್ನು ಹಿಂಪಡೆಯಲು ಕಾನೂನು ಪ್ರಕ್ರಿಯೆ ಆರಂಭವಾಗಿದ್ದು, ಈ ಜಾಗದಲ್ಲಿ ಕೂಡ ಬೃಹತ್ ಸರ್ವೋದ್ಧಾನ ನಿರ್ಮಿಸುವ ಗುರಿ ಇದೆ ಎಂದು ತಿಳಿಸಿದರು. ರಾಜ್ಯದಲ್ಲಿ ಪ್ರಸ್ತುತ ಶೇ. 22 ರಷ್ಟು ಆರಣ್ಯ ಪ್ರದೇಶವಿದ್ದು, ಈ ವ್ಯಾಪ್ತಿಯನ್ನು ಶೇ.33ಕ್ಕೆ ಹೆಚ್ಚಿಸುವುದು ಅಗತ್ಯ. ಹೀಗಾಗಿಯೇ ಸರ್ಕಾರ ಹೆಚ್ಚು ಹೆಚ್ಚು ಗಿಡ ನೆಟ್ಟು ಪ್ರೋತ್ಸಾಹ ಕಾರ್ಯ ಮಾಡುತ್ತಿದೆ ಎಂದರು.

## Green buildings key to sustainable devpt: Min

EXPRESS NEWS SERVICE  
@ Bengaluru

FOREST, Environment and Ecology Minister **Eshwar B Khandre** on Thursday said the government has been able to achieve some key objectives to inculcate best practices for environment conservation, protection and combating climate change. But some are yet to be achieved.

“The government is working on the issue of environment degradation in urban areas, but we haven’t had a breakthrough yet. Although we have been looking at various options, most of them are not helping enough. One among them is the green building concept we are looking at seriously. We are trying to understand and evaluate how well it can be integrated into our system and can help reverse the trend and achieve sustainable development,” Khandre said.

He was speaking at the inauguration of the three-day Green Building Congress 2024, an international conference being held in the city, organised by the Confederation of Indian Industry (CII) - Indian Green Building Council (IGBC). Khandre said Karnataka should work on three major concepts to achieve success - change in policy and rules, training for stakeholders and implementation and monitoring of concepts to make an impact on the ground.

Of the 12.8 billion sqft of green building footprint in India, Karnataka’s contribu-

tion is 1 billion sqft and it is one of the top three contributing states, having 1,100 green building projects.

Bengaluru has over 70 per cent of Karnataka’s green building space, followed by Mangaluru. While it is low, a lot more needs to be done, like setting high targets and goals, as the construction industry is growing rapidly, said B Thiagarajan, national chairman, IGBC. He said that like other states, Karnataka should give 5-10 per cent incentive to buildings certified by IGBC, besides a subsidy in registration and floor area ratio. It should consider raising the cap for installation of solar rooftop panels for better sustainability.

### City students win awards

Two Bengaluru students, Varna Vichithran and Priyatham Uppalapati, of BMS College of Architecture, won the IGBC Green Design Competition 2024, on the theme ‘Identifying Urban Voids’. Priyatham had won the award for finding a solution on how to use abandoned water tanks by redesigning them and using them in street vending areas and community co-working and skill development centres.

Varna won for the plan she created on remodelling of conservancy lanes in Malleswaram, demonstrating how they are used as children’s play areas, pet parks, walking or jogging parks, reading nooks and even plant nurseries.

Bengaluru / Chennai :- CII – IGBC, Annual 22nd edition of the GREEN BUILDING CONGRESS 2024, Asia's largest conference & expo on green built environment, that promotes sustainable building practices and technologies concluded in Bengaluru last week. The Green Building Congress called for further policy reforms to achieve India's goal of 50% renewable energy by 2030, including universal net metering, removing solar capacity limits, and reducing wheeling and green tariffs. It also urged updates to building codes to align with green & Net Zero norms, reducing costs for energy and water use. The three-day Conference and Expo brought to fore the progress of sustainable building practice so far in the country. Nationwide there has been the greening of an impressive 12.816 billion square feet of built-up area through 14,680 registered projects adopting IGBC GREEN and Net Zero standards. The impact of these projects goes beyond sustainability to inspire innovation and community development, with over 150 projects already achieving the net-zero status. Among the states in India, Karnataka has been one of the significant contributors to India's green and net zero building movement. The state boasts a registered green footprint of 1 billion square feet, with more than 1,120 projects aligning with IGBC's green building standards. Karnataka ranks among the top four states in renewable energy development, with an installed capacity of 22.37 GW as of October 2024. Bengaluru, as the host city of this year's IGBC Green Building Congress, reinforced its position as a hub for green innovation and sustainability leadership.

This flagship event was the only event supported by WorldGBC in India. 18 Green Building Councils from across the globe supported and shared similar goals to develop a unified strategy to help achieve Net Zero goals and engage stakeholders from the building and construction industry. The event highlighted the critical role of collective action, cross-border partnerships, and shared innovation in delivering impactful solutions to address climate change.

Commenting on the success of the 22nd Green Building Congress, Mr B Thiagarajan, National Chairman, Indian Green Building Council, said, "This year's Green Building Congress, aimed at advancing green building practices and creating actionable strategies for sustainable urban development. It is a critical step towards achieving the national goal of sustainable growth. By bringing together industry experts, policymakers, and practitioners, the event served as a platform to exchange ideas, showcase innovative solutions, and strengthen collaborative efforts. Over the course of three days, it has played a pivotal role in setting the groundwork for accelerating progress towards greening and ensuring a more sustainable future for India."
