16.11.2023	The Hindu	IGBC launches certification initiative 'Nest' to promote eco-friendly housing

IGBC launches certification initiative 'Nest' to promote eco-friendly housing

The Hindu Bureau
CHENNAI

To promote sustainable and eco-friendly constructions in the domestic housing sector, the Indian Green Building Council (IGBC) of the Confederation of Indian Industry launched a rating and certification initiative 'Nest' on Wednesday.

Ajit Kumar Chordia, chairman of IGBC Chennai chapter, unveiled the eco-friendly rating and certification initiative as part of the annual conference proposed to be held at Chennai Trade Centre, Nandambakkam, from November 23 to 25.

Mr. Chordia said the annual IGBC Green Building Congress 2023, which will be held in the city after a gap of 10 years, would provide a platform for the construction industry stakeholders in the country to create a sustainable building environment for achieving net zero carbon emission goals.

He said the green building rating and certification programmes being covered under 31 categories encompassing commercial space, factories, railway stations, special economic

zones (SEZs), and schools, have achieved a green building footprint of 10.42 billion square feet in over 11,586 projects. In the city alone, the Dr. MGR Chennai Central railway station, the Indian Institute of Technology, Madras campus, and Ramakrishna Mission School, are some of the green concept buildings, he added.

M. Anand, Deputy Executive Director, IGBC, said 'Nest' would help pave the way for individual house owners and the residential sector to adopt green building features in a big way to help in bringing down electricity consumption, water usage and creating a healthy living space.

Mahesh Anand, co-chairman of IGBC Chennai chapter, said that as part of the conference, the Chennai Corporation is planning to construct new public conveniences featuring the green building concept under the gold rating standard.

The Tamil Nadu government will be the partner State for the Green Building congress 2023. The World Green Building Council will be the support partner.

City to host green building congress after 10 years

CHENNAI: In a move to fast-track India's journey towards its 2070 net zero goal, CII's Indian Green Building Council (IGBC) on Wednesday introduced in Tamil Nadu its pioneering initiative - IGBC Nest - for the individual housing sector ahead of its flagship conference IGBC Green Building Congress 2023.

The initiative was unveiled in the presence of Ajit Kumar Chordia, chairman, IGBC Chennai Chapter, Co Chair - Green Building Congress 2023, Mahesh Anand, co-chairman, IGBC Chennai Chapter and M Anand, deputy ED, CII-IGBC.

The IGBC's Green Building Congress 2023, backed by The World Green Building Council (World GBC), and 20 different countries' Green Building Councils across the world is set to take place in the city after ten years from November 23, 2023 to November 25, 2023 with the theme Advancing Net Zero Through Decarbonization.

Chordia, said "Our mission is to ensure every building in India is a green building that will not only uplift the economic status of every homeowner but also increase life expectancy with better health benefits. IGBC's Nest Framework and Certification has been developed specifically for the individual homeowners to help them reduce energy cost by 20-30% and reduce water requirements by 30-50%."

Anand, said "After nearly a decade, we are happy to be bringing back our flagship Green Building Congress to Chennai once again. In the last ten years, Tamil Nadu as a state has become a role model for most of the other states due to a significant green building adoption not just in the capital city, Chennai, but also in major urban centres like Coimbatore, Madurai, Tiruchy, Kanchipuram, Tirupur, and Thoothukudi."

16.11.2023	The Times of India	GCC plans to get green rating for 3000 public toilets

GCC plans to get green rating for 3,000 public toilets

Vivek Narayanan
@timesgroup.com

Chennai: More than 3,000 public toilets in the city, including the ones in Marina Beach, may get a swanky new look with natural lighting and odour-free interiors, starting next year. And, customers may not have to pay to use them.

The improvements are planned as the Greater Chennai Corporation is trying to get a green rating for these toilets from the Indian Green Building Council (IGBC).

The GCC, through its consultant RSB Arch Project consultants, has approached the IGBC for a green rating for 3,270 toilets in 370 locations across Royapuram (zone 5),

BETTER TOILETS SOON

Thiru Vi Ka Nagar (zone 6), and Teynampet (zone 9).

"Of this, toilets in 90 locations will be built anew. The

interiors of 30% of them will be demolished and reconstructed, and the retrofitting will be done on the remaining ones. In zone 9, we are only taking up toilets in Marina Beach," said R Suresh Babu, managing director, RSB Arch Project consultants.

As part of obtaining the green certification, all the toilets should have an eco-friendly design, free air circulation, natural lighting, foul smell evacuation through natural draft, solar lighting, and water reuse, he said.

Ajit Chordia, chairman, IGBC Chennai, said if toilets can go green, buildings and houses can also follow suit.

"However, maintaining them is crucial; otherwise, the entire green concept will

fail," he said.

The consultant will be pulled up if he does not fulfill the key performance areas. "It will be maintained like the airport. There should be continuous water supply, no water stagnation, no odor, no clogging, no slippage, and if a closet is damaged, it should be replaced immediately," said Suresh Babu.

The IGBC members spoke to **TOI** on the sidelines of the launch of IGBC Nest, a first-of-its-kind, eco-friendly self-developed tenement framework and certification that aims to raise awareness and drive individual owners to build a sustainable home with no or minimal additional cost. The initiative encourages the owners to adopt

simple green measures.

"We are carrying out a study across Tamil Nadu to assess the benefits or savings individual houses will accrue if they adopt green measures. The report will be submitted to the government so that subsidies can be announced for those who go green. Banks have also come forward to reduce home loan interest rates for those who opt for such individuals," said M Anand, deputy executive director, CII-IGBC.

The press conference also witnessed the kick-start of IGBC's Green Building Congress 2023, set to take place in the city from November 23 to 25.

16.11.2023	The New Indian Express	GCC's upcoming 90 toilets to leave no carbon footprint

GCC's upcoming 90 toilets to leave no carbon footprint

C SHIVAKUMAR @ Chennai

AFTER many years of city residents raising a stink over unhygienic public toilets, the city corporation has now entered into a public-private partnership to construct public toilets through a consortium in 90 locations spread across Royapuram, Thiru-Vi-Ka-Nagar and a part of Marina Beach. This is the first time that service buildings or toilets will be provided ratings under the Indian Green Building Council (IGBC), which brings together a host of sustainable practices and solutions to reduce the adverse environmental impact of construction.

The 90 new solar-powered toilets will have natural ventilation and light, and rainwater harvesting pits, said Dr R Suresh Babu, managing director of RSB, one of the members of the consortium, which has come forward to ensure the maintenance of toilets. "The toilets will have dedicated seats for transpersons and people with disabilities. We are vying to make the toilets a 'net zero carbon' initiative. Further, the toilets in all the 90 locations will vie for the IGBC's gold rat-

The toilet model proposed by the city corporation | EXPRESS

ing. The public will be able to use the toilets free of cost, and some of these could be assigned as community toilets for the poor. Two persons will man each toilet in separate shifts," Babu told *TNIE*.

Existing toilets in 280 locations in the city will also be renovated under the same public-private partnership, but they won't be brought under the IGBC ambit. A Greater Chennai Corporation official told *TNIE* that the existing 280 and new 90 toilets (a total of 370 locations) will comprise a total of 3,270 seats.

The toilets in 370 locations would be maintained by the consortium for eight years after which it will be handed over to the city corporation. The project worth ₹270 crore is being funded by the State Bank of India. Capital for building the

toilets in 90 locations is estimated at ₹70 crore. CCTV cameras will be installed outside the toilets, and women can also make use of the sanitary napkin dispenser in the toilets. "People using these toilets won't feel cramped for space, and the ventilation is designed in such a way that the place won't stink," said Babu.

The project is implemented under the hybrid annuity model (HAM). It is a mix of two models – Build Own Transfer (BOT) Annuity, where a contractor or developer assumes responsibility for the entire lifecycle of the project; and EPC (Engineering, Procurement and Construction), a type of project delivery model (or contract agreement) where contractors are responsible for the project from start to finish of construction.

பசுமை கட்டட சான்றிதழ்; வீடுகளுக்கும் பெறலாம்

சென்னை, நவ. 16- குறைந்த பரப்பளவில் கட்டப்படும் தனி வீடுகளுக்கு, எளிதாக பசுமை கட்டட சான்றிதழ் பெறுவதற்கான புதிய நடைமுறையை, இந்திய பசுமை கட்டடங்கள் கவுன்சிலான ஐ.ஐ.பி.சி., அறிமுகப்படுத்தி உள்ளது.

இது தொடர்பாக, இந்திய பசுமை கட்டடங்கள் கவுன்சிலின் சென்னை கிளை தலைவர் அஜீத் குமார் சோர்டியா, இணை தலைவர் மகேஷ் ஆனந்த் ஆகியோர் கூறியதாவது: நாட்டில் தற்போதைய நிலவரப்படி, 11,000த்துக்கு மேற்பட்ட பசுமை கட்டடங்கள் கட்டப்பட்டுள்ளன. இதன் மொத்த பரப்பு, 1,022 கோடி சதுர அடியாக உள்ளது.

தற்போதைய நிலவரப்படி, 8 வகை பயன்பாட்டில் உள்ள கட்டடங்களுக்கு, 31 நிலைகளில் பசுமை கட்டட சான்றிதழ்கள் வழங்கப்படுகின்றன.

அலுவலகங்கள், அடுக்குமாடி குடியிருப்புகள், மருத்துவமனை

மட்டுமல்லாது, தற்போது பள்ளிகள், வீடுகள், ஏற்கனவே கட்டப்பட்ட அடுக்குமாடி குடியிருப்புகள், வழிபாட்டு இடங்கள் ஆகியவற்றுக்கும் பசுமை கட்டட சான்று வழங்கப்படுகிறது.

இந்த வகையில், சென்னை சென்ட்ரல் ரயில் நிலைய பிரதான கட்டடத்துக்கு, சில மாதங்கள் முன், பசுமை கட்டட சான்றிதழ் வழங்கப்பட்டது. பசுமை கட்டடங்களை அதிகரிக்க, தமிழக அரசு பல்வேறு விதிமுறைகளை அறிமுகப்படுத்தி வருகிறது.

வீடுகளுக்கு...

இதன் அடுத்தகட்டமாக, குறைந்த செலவில்,

தனிநபர்கள் சொந்த முயற்சியில் கட்டும் வீடுகளுக்கும் பசுமை கட்டட சான்று வழங்க முடிவு செய்யப்பட்டுள்ளது.

தண்ணீர், மின்சாரம் பயன்பாட்டை குறைத்து, கரியமில வாயு உமிழ்வை குறைக்கும் வகையில் கட்டடங்களை கட்டுவதற்கான, 20 வழிமுறைகள் பரிந்துரைக்கப்பட்டுள்ளன.

இந்த வழிமுறைகளை கவனத்தில் வைத்து கட்டடங்களை கட்டியவர்கள், பசுமை கட்டட சான்றிதழ் பெற, வல்லுனர்கள் உதவி இன்றி தானாகவே விண்ணப்பிக்கலாம்.

அந்த கட்டடம், குறிப்பிட்ட சில நிலைகளில் ஆய்வு செய்யப்பட்டு, பசுமை தரச் சான்று வழங்கப்படும்.

பசுமை கட்டுமான முறையை கடைபிடிப்பதை வரைபட தயாரிப்பு நிலையிலேயே உறுதி செய்தால், அதில் ஏற்படும் கூடுதல் கட்டுமான செலவை, வீட்டு கடனில் வழங்க, 8 தனியார்

வங்கிகள் முன் வந்துள்ளன.

மேலும், இத்தகைய கட்டடங்களுக்கு வீட்டுக்கடன் வழங்கும்போது, வட்டி சலுகை வழங்கவும் வங்கிகள் முன் வந்துள்ளன.

இது தொடர்பான முழுமையான விபரங்களை, பொது மக்கள், igbc.in/ என்ற இணையதளத்தில் அறியலாம். பழைய அடுக்குமாடி குடியிருப்பு வளாகங்களுக்கு, பசுமை கட்டட சான்று பெற, அதை நிர்வகிக்கும் வீட்டு உரிமையாளர் சங்கங்கள் விண்ணப்பிக்கலாம்.

சென்னையில் மாநாடு

பசுமை கட்டடங்கள் கட்டுவதற்கான தொழில் நுட்பங்கள், கட்டுமான பொருட்கள் குறித்து, பொது மக்கள் அறிய, ஐ.ஐ.பி.சி.,யின் பசுமை கட்டட மாநாடு, சென்னை வர்த்தக மையத்தில், வரும் 23, 24, 25 தேதிகளில் நடக்க உள்ளது.

இவ்வாறு அவர்கள் கூறினர்.

देश में पहली बार
सार्वजनिक शौचालयों की ग्रीन रेटिंग के लिए किया आवेदन

आईजीबीसी ग्रीन बिल्डिंग कांग्रेस 2023 तीन दिवसीय सम्मेलन का आयोजन करेगी जो 23 नवम्बर से शुरू होगी।

पत्रिका न्यूज नेटवर्क
 पत्रिका patrika.com

चेन्नई. देश में पहली बार चेन्नई के सार्वजनिक शौचालयों की ग्रीन रेटिंग के लिए आवेदन किया गया है। डीआरआरएसबी पीसीटी वन प्राइवेट लिमिटेड ने इंडियन ग्रीन बिल्डिंग काउंसिल (आईजीबीसी) के साथ उनकी सेवा निर्माण श्रेणी के तहत सार्वजनिक शौचालयों की ग्रीन रेटिंग के लिए आवेदन किया है। कंपनी को सार्वजनिक शौचालयों के लिए गोल्ड रेटिंग मिलने का भरोसा है।

आईजीबीसी चेन्नई चैप्टर के अध्यक्ष अजीत कुमार चोरडिया ने बुधवार को बताया कि कंपनी को ग्रेटर चेन्नई कॉर्पोरेशन (जीसीसी) से यहां 372 सार्वजनिक शौचालयों के निर्माण, संचालन और रखरखाव का टेंडर मिला है। ग्रीन बिल्डिंग वे इमारतें हैं जो निर्माण के दौरान न केवल पर्यावरण को कम से कम नुकसान पहुंचाती हैं, बल्कि इन भवनों के निर्माण में साधारण भवनों की तुलना में कम पानी लगता है। प्राकृतिक ऊर्जा का ज्यादा उपयोग

23-25 नवम्बर तक सम्मेलन

आईजीबीसी के अधिकारियों ने कहा कि तीन दिवसीय आईजीबीसी ग्रीन बिल्डिंग कांग्रेस 2023 23-25 नवम्बर तक होगी। इसमें देश और विदेश से लगभग 150 वक्ताओं के शामिल होने की उम्मीद है। आईजीबीसी ग्रीन बिल्डिंग कांग्रेस 2023 में हरित उत्पाद, प्रौद्योगिकियों का प्रदर्शन किया जाएगा। आईजीबीसी ग्रीन बिल्डिंग कांग्रेस 2023 का मिशन यह सुनिश्चित करना है कि भारत में हर इमारत एक हरित इमारत हो जो न केवल प्रत्येक गृहस्वामी की आर्थिक स्थिति को ऊपर उठाएगी बल्कि बेहतर स्वास्थ्य लाभ के साथ जीवन प्रत्याशा को भी बढ़ाएगी।

होता है, प्राकृतिक संसाधनों की बचत होती है, कम से कम वेस्ट होता है।

Launch of Nest Framework & Certification for Self-Developed Individual Housing Sector

CHENNAI, NOV 16: In a move to fast-track India's journey towards its 2070 net zero goal, CII's Indian Green Building Council (IGBC) unveiled and introduced in Tamil Nadu its pioneering initiative - IGBC Nest for the individual housing sector ahead of its

flagship conference IGBC Green Building Congress 2023.

The initiative was unveiled and introduced in a press conference in the presence of Mr Ajit Kumar Chordia, Chairman, IGBC Chennai Chapter, Co Chair - Green Building Congress

2023, Mr Mahesh Anand, Co-Chairman, IGBC Chennai Chapter and Mr M Anand, Deputy Executive Director, CII -IGBC.

IGBC Nest is a first-of-its-kind, Eco-friendly Self-developed Tenements framework and certification that aims to bring awareness and drive the individual owners to build a sustainable home with no or meager additional cost.

Sharing his insights on the initiative and conference, Mr. Ajit Kumar Chordia, Chairman, IGBC Chennai Chapter, Co Chair - Green Building Congress 2023, said " IGBC's Nest Framework and Certification has been developed specifically for the individual homeowners to

help them reduce energy cost by 20-30% and reduce water requirements by 30-50%".

Adding to this, Mr Mahesh Anand, Co- Chairman, IGBC Chennai Chapter, said "The Green Building Congress acts as a pivotal platform, uniting government officials, real estate developers, architects, and construction industry players with the shared objective of fostering a green future for India".

The press conference also witnessed the kick-start of IGBC's Green Building Congress 2023, the only event in India that is supported by The World Green Building Council (World GBC), and 20 different countries' Green Building Councils across the world.

IGBC to hold Green Building Congress from today

Our Bureau
Hyderabad

With a view to furthering the discussing and spread awareness on the green building movement, the IGBC is organising a three-day Green Building Congress beginning November 23. Scheduled to be held at Chennai Trade Centre, the conference would provide a platform for the stakeholders in the construction industry learn and discuss the benefits of migrating to green building.

From a time when going green implied shelling out a premium on green-friendly material, the green building movement has reached a stage where green material is so widespread that over 95 per cent of the green rated material is available at af-

fordable prices. "With a green building footprint of 10.42 billion sq ft, and with over 11,000 projects conforming to Indian Green Building Council's 34 rating systems, the green building movement in India has taken off," C Shekar Reddy, Chairman of IGBC (Hyderabad Chapter) and CII (Telangana Chapter), has said.

IGBC now has a network of 29 local chapters across the country, with about 7,000 accredited professionals (IGBC-APs), and 360+ student chapters.

With a view to furthering the discussing and spread awareness on the green building movement, the IGBC is organising a three-day Green Building Congress beginning November 23.

Scheduled to be held at Chennai Trade Centre, the conference would provide a platform for the stakeholders in the construction industry learn and discuss the benefits of migrating to green building.

Marking the conference, the IGBC has launched the IGBC Nest programme, which is an eco-friendly, self-developed tenements framework and certification. It is aimed at bringing awareness and drive the individual owners to build a sustainable home with no or meagre additional cost.

The IGBC claimed that the framework and certification would help homeowners reduce energy cost by 20-30 per cent and reduce water requirements by 30-50 per cent.

"The initiative encourages the owners to adopt green measures that are simple and have profound impacts in addressing resource efficiency and occupant's health and wellbeing.

The framework throws light on building envelopes, water and energy efficiency and harnessing solar energy," he said.

NET ZERO GOALS

"The certification programme will go a long way in building an integrated approach to help the country achieve net zero carbon emission goals," he said.

The programme, which will focus on the theme Advancing Net Zero Through Decarbonisation, is being organised in association with the Tamil Nadu government.

IGBC launches green ratings to speed up decarbonisation drive in building space

G Balachandar
Chennai

The Indian Green Building Council, established by the Confederation of Indian Industry (CII) in 2001 to actively promote the green building concept in India, has introduced new green rating tools as part of its net zero mission to accelerate the uptake of green building projects in the country.

The new green rating tools of IGBC were launched at the Indian Green Building Congress, held in Chennai between November 23-25, 2023. They include net zero carbon rating and upgraded rating systems - Green Existing Building Rating Version 1.0, Green Factory Rating Version 2.0 and Green Campus Rating Version 1.0.

The building and construction sector in India accounted for nearly one-third of the total GHG emissions inventory covering both operational and embodied emissions in 2021.

IGBC launched the mission of 'net zero' with the vision of facilitating India to become one

NET ZERO MISSION. The new green ratings were launched at the Green Building Congress held in Chennai on Thursday

of the foremost countries in transforming to net zero by 2050. As part of this mission to facilitate buildings and the built environment to adopt net zero concepts, IGBC has introduced specific rating systems such as net zero energy, net zero water and net zero waste to landfill.

KEY STEP

"So far, more than 350 organisations from the Indian building sector have committed to achieving the net zero status for their new and existing buildings. Also, about 90 projects are adopting net zero energy, water, waste to landfill and carbon concepts across the country," said Gurmit Singh Arora, National Chairman, IGBC.

The new rating tool IGBC net zero carbon (pilot Version) rating system is described as another key step to reduce operational and embodied emissions. The rating system has been developed based on the consensus and support of all the relevant stakeholders. The net zero carbon rating system is a voluntary and consensus-based programme for both new and existing buildings and campuses. The rating tool has been designed to encourage the use of low-embodied carbon materials, optimise the buildings' performance using passive features and technologies, and use on-site and off-site renewable energy systems and carbon sequestration measures to reduce

or offset the carbon emissions associated with the buildings and its concerned environment. Green Existing Building Rating Version 1.0 is an improved version of the pilot system after taking feedback from all stakeholders, while Green Campus Rating Version 1.0 seeks to rate not just the building alone, but also the building environment. More than 100 campuses are reported to implementing measures to be rated under this system.

GREEN FOOTPRINT

IGBC has facilitated more than 11,500 projects across the country with a green footprint of over 10.42 billion sq ft. This has made India a global leader in the sustainable built environment with the second largest green building footprint in the world.

"We stand number 2 in the world, whereas, in the case of net zero buildings, we have a great opportunity to take a leadership position and make India the number 1 country in the world," said Jamshyd Godrej, Chairman, CII-Sohrabji Godrej Green Business Centre.

Focus on cutting down dust pollution at construction sites

G Balachandar
Chennai

After facilitating sustainable practices in reducing environmental impacts in buildings, the Indian Green Building Council (IGBC) is keen on promoting construction management tools and systems for the construction sector to cut down dust pollution which has become a serious issue across the country.

Referring to air pollution issues that have taken place in various parts of the country, especially in Northern India and also the West now, Jamshyd N Godrej, Chairman, CII-Sohrabji Godrej Green Business Centre, said that the building sector would have to do some major introspection about how to manage dust that comes out of various sites – not just buildings, but also roads and the entire infrastructure sites.

“The construction sector will have to adhere to a

Jamshyd N Godrej, Chairman, CII-Sohrabji Godrej Green Business Centre

much higher level of standard as far as dust is concerned and dust abatement through various means will have to become a Centrestage, he added.

DUST ABATEMENT

Godrej urged the construction sector to rise up to this dust challenge as it was causing major health issues, especially in Northern belts. There have been a number of reports stating

a drop in life expectancy in the Delhi region by up to 10-12 years due to air pollution. The construction sector carries a big responsibility in dust abatement.

Explaining IGBC’s role, he said though air pollution issues were handled by Pollution Control Boards, there is a need to improve the dust management practices across construction sites.

“I think at some stage IGBC has to be involved in construction practices also. Currently, it doesn’t have any direct role while the body has been working with developers and construction companies,” he added.

A detailed construction management protocol will have to be brought in place and put more emphasis on the management of that to control the pollution at various sites. Industry should be self-managing this instead of leaving the job to Pollution Control Boards, he added.

Green Building Congress inaugurated

[NT Bureau]
Chennai, Nov 24:

CII's Indian Green Building Council (IGBC) in partnership with The Tamil Nadu Government has formally inaugurated its three-day annual flagship conference - Green Building Congress 2023 in the city.

A press release said, "As a key facilitator in India's journey towards achieving Net Zero Carbon Emission goal, IGBC announced India's first 'Net Zero Carbon' rating system as part of the inaugural event."

Gurmit Singh Arora, Chairman - IGBC & Chairman - Green Building Congress 2023 said "The Government of India over the last two decades has initiated several new missions and policies which support the path towards net zero carbon buildings, cities and nation. The building sector of our country has an excellent opportunity to take the leadership role for accelerating the

uptake of Net Zero. The Green Building Movement in India has been spearheaded by CII's IGBC since 2001, by creating awareness amongst the stakeholders. Thus far, the Council has been instrumental in enabling 10.42 billion sq.ft. of green building footprint in the country. The Council's activities have enabled a market transformation particularly in the green building materials and technologies. IGBC continuously works to provide tools that facilitate the adoption of green building practices in India. The newly launched Net Zero Rating System is an ini-

tiative aimed at facilitating the adoption of Net Zero concepts to support market transformation towards total building sector decarbonization and to accelerate the adoption of Net Zero concepts in the country." Gurmit Singh Arora further added that "The benefits of this rating system are multifaceted. Beyond supporting India's climate goals through carbon reduction, it encourages resource efficiency, adoption of energy-efficient systems, integration of renewable energy sources, responsible water use, waste minimization, and climate-resilient building designs."

नेट जीरो कार्बन रेटिंग सिस्टम शुरू 2070 से पहले तमिलनाडु की नेट जीरो लक्ष्य तक पहुंचने की योजना

चेन्नई@पत्रिका. सीआइआइ की इंडियन ग्रीन बिल्डिंग काउंसिल (आईजीबीसी) ने राज्य सरकार के साथ साझेदारी में गुरुवार को चेन्नई में तीन दिवसीय वार्षिक प्रमुख सम्मेलन- ग्रीन बिल्डिंग कांग्रेस 2023 का उद्घाटन किया।

नेट जीरो कार्बन उत्सर्जन लक्ष्य प्राप्त करने की दिशा में आईजीबीसी ने देश की पहली 'नेट जीरो कार्बन' रेटिंग प्रणाली की घोषणा की। इस मौके पर उद्योग मंत्री डॉ. टी.आर.बी राजा ने देश के उत्सर्जन में नेट जीरो के लक्ष्य को पाने की अवधि की जानकारी दी।

उन्होंने कहा कि भारत 2070 तक नेट जीरो को हासिल कर लेगा। यानी भारत की तरफ से नेट जीरो तक पहुंचने का जो टारगेट रखा गया है, वो तमिलनाडु के 2050 के वैश्विक लक्ष्य से दू दशक ज्यादा है। हालांकि, कॉरपोरेट और सरकारी कार्यालयों, आवासीय परिसरों, शैक्षणिक संस्थानों, शहरों, पूजा स्थलों और हवाई अड्डों को कवर करने वाली 11,586 से अधिक परियोजनाओं में फैली यह उपलब्धि, सेंसिटाइजिंग बिल्ट इकोसिस्टम द्वारा 2050 तक 50 बिलियन वर्ग फुट हरित इमारतों को प्राप्त करने की दिशा में आईजीबीसी की यात्रा में एक महत्वपूर्ण मील का पत्थर है।

इस मौके पर आईजीबीसी द्वारा तैयार किए गए आईजीबीसी नेट जीरो कार्बन रेटिंग सिस्टम प्रकाशन के संदर्भ दिशा-निर्देशों का अनावरण और विमोचन मंत्री डॉ. टी.आर.बी राजा, भारतीय ग्रीन बिल्डिंग काउंसिल के राष्ट्रीय अध्यक्ष, गुरमित सिंह अरोड़ा, आईजीबीसी चेन्नई चैंप्टर के अध्यक्ष अजीत चोरडिया, ओलिवर बॉलहेचैट एमबीई, ब्रिटिश उप उच्चायुक्त चेन्नई द्वारा किया गया। समारोह में भारतीय विद्या भवन आत्मकुरी रामाराव स्कूल, (पर्यावरण के लिए लाभ), केंद्रीय विद्यालय बीएसएफ कैंप छावला, दिल्ली (शिक्षा और जागरूकता) और नेवी चिल्ड्रन स्कूल, कारवार, कर्नाटक (इनोवेशन श्रेणी) को ग्रीन योर स्कूल प्रोग्राम के लिए विजेताओं के रूप में मान्यता दी गई और सम्मानित किया गया।

24.11.2023	Trinity Mirror	TN Plans to achieve Net Zero emissions decade ahead of target: Minister

TN plans to achieve Net Zero emissions decade ahead of target: Minister

Chennai, Nov 24: CII's Indian Green Building Council (IGBC) as part of the inaugural day of its flagship Green Building Congress 2023 today announced the successful completion of 10.42 Billion Sq.Ft of Green Built Footprint across the country.

Marking this significant step, IGBC also released its annual report for the year 2022-2023 in the presence of Minister Dr. T.R.B Rajaa, Minister for Industries, along with the CII -IGBC Leadership Team that encapsulates the several initiatives undertaken by IGBC with the support of key stakeholders to achieve the green footprint milestone.

Spread across 11,586 plus projects covering Corporate and Government offices, Residential Complexes, Educational Institutions, Cities, Places of worship and Airports, the achievement marks a significant milestone in IGBC's journey towards achieving 50 billion sqft of green buildings by 2050 by Sensitizing Built Ecosystem.

Sharing his thoughts on the state's green initiatives and ambitions, Hon'ble Minister, Mr. T.R.B Rajaa, Minister of Industries, Government of Tamil Nadu, said "Congratulations to IGBC for organizing this conference at a crucial juncture and also doing this on a continuous basis over the years. Tamil Nadu is making huge strides in sustainability and meeting the climate crisis head on. Tamil Nadu does things differently and we have been doing things differently for a long time. Sustainability and anything green comes naturally to Tamil Nadu." "Tamil Nadu is the most urbanized state in India. Every corner of TN is developed. We would like to continue doing that. When we do that there is huge pressure on the environment and that is something we are worried about. The Hon'ble CM has been continuously monitoring the expedition of material of construction and being careful about consumption. We are looking at alternate material for construction and we are encouraging every

department to come up and bring solutions," added Hon'ble Minister Dr. T.R.B Rajaa

He further added that "Tamil Nadu would like to reach the Net Zero target a decade ahead of 2070. As a state that is adding value to the idea of India, we would definitely want to be a state when it comes to using renewable and sustainable materials in construction. This Government will listen and is open to ideas and we request IGBC and the stakeholders present here to bring ideas to enable the state to become much more sustainable and green. We will ensure that all the requests from the industry are heard and rapid actions are undertaken, see how change can be brought in and ensure that we build greener buildings going forward. At the pace in which Tamil Nadu's economy is growing, we intend to take the greenest route possible."

The first day of the three day conclave concluded with 18 organizations receiving the prestigious IGBC Founding Member Award for the year 2023.

IGBC launches India's First Net Zero Carbon Rating System

CHENNAI, NOV 24

CII's Indian Green Building Council (IGBC) in partnership with The Tamil Nadu Government formally inaugurated its three-day annual flagship conference Green Building Congress 2023 in the city.

The reference guidelines of IGBC net zero carbon rating system publication formulated by IGBC was unveiled and released by Mr. Gurmit Singh Arora, National Chairman, Indian Green Building Council, Mr. Ajit Chordia, Chairman, IGBC Chennai Chapter, Mr. Oliver Ballhatchet MBE, British Deputy High Commissioner Chennai, Mr. Jamshed N Godrej, Chairman, CII-Sohrabji Godrej Green Business Centre, Mr. B Thiagarajan National Vice Chairman, Indian Green Building Council and Mr. Mahesh Anand, Co-chairman, IGBC Chennai Chapter.

Sharing his view on the newly launched Net Zero Rating System, Mr. Gurmit Singh Arora, Chairman IGBC & Chairman Green Building Congress 2023 said "The newly launched Net Zero Rating System is an initiative aimed at facilitating the adoption of Net Zero concepts to support

market transformation towards total building sector decarbonization and to accelerate the adoption of Net Zero concepts in the country."

Concluding the session, Mr. B Thiagarajan, National Vice Chairman, Indian Green Building Council said "Over 1000 products from across the globe will be displayed at the expo.

The conference and the expo together will certainly be a stepping stone to create a conducive green future."

The inaugural event also laid a platform for the eminent guests to recognize and reward the winners of 'Design for LiFE: Small Medium Large Solutions for a Sustainable Tomorrow' a design competition for student of architecture to envision the future.

As part of the inaugural event, Bharatiya Vidya Bhavans Atmakuri Ramarao School, (Benefits to Environment), Kendriya Vidyalaya BSF Camp Chhawla, Delhi (Education & Awareness) and Navy Children School, Karwar, Karnataka (Innovation Category) were recognized and awarded as winners for the Green Your School Programme.

புதிய கட்டிடங்களில் கார்பன் உமிழ்வை முற்றிலுமாக குறைக்கும் திட்டம்

சென்னை.நவ.24-

கட்டிடங்களில் இருந்து கார்பன் உமிழ்வை முற்றிலுமாக குறைக்கும் திட்டம் சென்னையில் நடைபெறும் பசுமை கட்டிடம் குறித்த அகில இந்திய மாநாட்டில் அறிமுகம் செய்யப்பட்டது.

இதன் படி இனி கட்டிடம் கட்டும்போது அந்த கட்டிடம் முழுவதும் கார்பன் உமிழ்வை வெளியிடாத கட்டிடமாக இருந்தால் அதற்கான தரவரிசை அளிக்கப்படும். மூன்று நாள் மாநாட்டின் தொடக்க நிகழ்வில், இந்தியா முழுவதிலும் இருந்து கிரீன் யுவர் ஸ்கூல் திட்டத்தின் வெற்றியாளர்களுக்கு பாராட்டு தெரிவிக்கப்பட்டது.

இந்திய தொழில்சூட்டமைப்பு, இந்திய பசுமைக் கட்டிடம் கவுன்சில் (ஐஐபிசி) ஆகியவை தமிழ்நாடு அரசுடன் இணைந்து இந்த மாநாட்டை நடத்தின. நிகர பூஜ்ஜிய கார்பன் உமிழ்வு இலக்கை அடைவதற்கான இந்தியாவின் பயணத்தில் ஒரு முக்கிய நடவடிக்கையாக மாநாட்டின் முதல் 'நிகர ஜீரோ கார்பன்' மதிப்பீட்டு முறை அறிவிக்கப்பட்டது. இதற்கான வழிகாட்டுதல்களை இந்திய பசுமை கட்டிட கவுன்சிலின் தேசிய தலைவர் குர்மித் சிங் அரோரா, சென்னை பகுதி தலைவர் அஜித் சோர்டியா, ஆலிவர் பால்ஹட்செட் ஆகியோர் வெளியிட்டனர்.

சென்னைக்கான பிரிட்டிஷ் உயர் துணை ஆணையர் ஜம்ஷித் என் கோத்ரேஜ், சிஐஐ தலைவர் சோஹ்ராப்ஜி கோத்ரேஜ், பசுமை பள்ளி திட்டத்திற்காக இளம் மனங்களில் பசுமை உணர்வைத் தூண்டும் ஒரு ஒற்றை முழக்கத்துடன் 8 முதல் 10 ஆம் வகுப்பு வரையிலான வகுப்புகளுக்கான பசுமை உங்கள் பள்ளி திட்டமும் மாநாட்டில் தொடங்கப்பட்டது.

25.11.2023	Vannakam Tamilagam	IGBC Launches India's first net zero carbon rating system at the Green Building Congress 2023

பசுமை கட்டிட காங்கிரஸ் 2023 நிகழ்வில் ஐஜிபிசி அறிமுகம் செய்யும் இந்தியாவின் முதல் நிகர பூஜ்ய கார்பன் தரமிடல் அமைப்பு

சென்னை:

சிஐஐ அமைப்பின் இந்திய பசுமை கட்டிட கவுன்சில் (ஐஜிபிசி) மற்றும் தமிழ்நாடு அரசின் கூட்டாண்மையோடு நடைபெறும் பசுமை கட்டிட காங்கிரஸ் 2023 (கிரீன் பில்டிங் காங்கிரஸ் 2023) என்ற மாநாடு தொடங்கியிருக்கிறது.

நிகர பூஜ்ய கார்பன் உமிழ்வு இலக்கையடையும் இந்தியாவின் பயணத்தில் ஒரு முக்கிய ஏதுவாக்குளான ராக் திகழும் ஐஜிபிசி, தொடக்க விழா நிகழ்வின் ஒரு அங்கமாக, இந்தியாவின் முதல் "நிகர பூஜ்ய கார்பன் தரமிடல்" அமைப்பு முறையை அறிமுகம் செய்திருக்கிறது.

கட்டுமான பணி துறையின் முழுமையான கார்பன் அகற்றல் என்ற குறிக்கோளை நோக்கி இச்சந்தையின் நிலைமாற்றத்திற்கு ஆதரவளிக்க நிகர பூஜ்ய கருத்தாக்கங்களை பலரும் பயன்படுத்துவதற்கான ஒரு செயல் ஊக்கியாக நிகர பூஜ்யம் (நெட் ஜீரோ) மீதான ஐஜிபிசி ன் செயல்திட்டம் இருக்கும்.

ஐஜிபிசி நிகர பூஜ்ய கார்பன் தரமிடல் அமைப்புக்காக வழிகாட்டல்களையும், அறிவுறுத்தல்களையும் ஐஜிபிசி உருவாக்கியிருக்கிறது. இந்தியன் கிரீன் பில்டிங் கவுன்சில் ன் தேசிய தலைவர் குர்மித் சிங் அரோரா, அதன் சென்னை கிளையின் தலைவர் அஜித் சோர்டியா, சென்னையிலுள்ள துணை ஹை கமிஷனர் ஆலிவர் பால் லூராச்சட் MBE, சிஐஐ சொராபிஜி கோத்ரேஜ் கிரீன்

பிசினஸ் சென்டர் ன் தலைவர் ஜாம்சித் என் கோத்ரேஜ், இந்தியன் கிரீன் பில்டிங் கவுன்சில் ன் தேசிய துணைத்தலைவர் பி தியாகராஜன், ஐஜிபிசி சென்னை கிளையின் இணை தலைவர் மகேஷ் ஆனந்த் ஆகியோர், இந்த வழிகாட்டல் பிரசுரத்தை இன்றைய நிகழ்வில் வெளியிட்டு அறிமுகம் செய்தனர்.

உங்கள் பள்ளியை பசுமையாக்குங்கள் (Green Your School) செயல்திட்டத்தில் வெற்றியாளர்களாக தேர்வு செய்யப்பட்டிருக்கும் பாரதிய வித்யா பவன்ஸ் ஆத்மசூரி ராமாராவ் பள்ளி (கற்றுச்சூழலுக்கு நன்மைகள்), கேந்திரிய வித்யாலயா பிஎஸ்எஸ்பீ கேம்பீ சாலா, டெல்லி (கல்வி - விழிப்புணர்வு) நேவி சிறார்கள் பள்ளி, கார்வார், கர்நாடகா (புத்தாக்க வகையினம்) ஆகிய பள்ளிகள் வெற்றி யாளர்களாக தேர்வு செய்யப்பட்டு இத்தொடக்க விழா நிகழ்வில் பாராட்டி கவுரவிக்கப் பட்டன. இளம்

மாணவர்கள் மத்தியில் பசுமை உணர்வை ஆழமாக பதியவைக்க வேண்டுமென்ற நோக்கத்தோடு 8 ம் வகுப்பு முதல் 10 ம் வகுப்பு வரை பயிலும் மாணவர்களுக்காக இத்திட்டத்தை ஐஜிபிசி தொடங்கி செயல்படுத்தி வருகிறது.

கடந்த 17 ஆண்டுகளாக நமது நாட்டை பசுமையான தேசமாக ஆக்குவதற்கு பள்ளி மாணவர்களின் புதுமையான யோசனைகள் மற்றும் முன்னெடுப்புகளை ஐஜிபிசி அங்கீகரிக்கும் வெற்றிகரமான திட்டமாக இது நடத்தப்படுகிறது. நிகர பூஜ்ய கார்பன் தரமிடல் அமைப்பு முறை அறிமுகத்தோடு சேர்த்து, ஏற்கனவே இருந்துவரும் கட்டிடங்களுக்கும், பசுமை வளாகங்களுக்கும் மற்றும் பசுமை தொழிலகங்களுக்கும் தற்போது இருந்து வரும் தரமிடல் அமைப்பு முறைகளின் நிகழ்நிலைப்படுத்தப்பட்ட பதிப்புகளையும் ஐஜிபிசி வெளியிட்டிருக்கிறது.

IGBC Launches India's First Net Zero Carbon Rating System at Green Building Congress 2023

CII's Indian Green Building Council (IGBC) in partnership with The Tamil Nadu Government today formally inaugurated its three-day annual flagship conference - Green Building Congress 2023 in the city. As a key facilitator in India's journey towards achieving Net Zero Carbon Emission goal, IGBC announced India's first 'Net Zero Carbon' rating system as part of the inaugural event. The IGBC's Mission on Net Zero serves as a catalyst for the adoption of Net Zero concepts, supporting the market's transformation towards total decarbonization of the building sector. The reference guidelines of IGBC net zero carbon rating system publication formulated by IGBC was unveiled and released by Mr. Gurmit Singh Arora, National Chairman, Indian Green Building Council, Mr. Ajit Chordia, Chairman, IGBC Chennai Chapter, Mr. Oliver Ballhatchet MBE, British Deputy High Commissioner Chennai, Mr. Jamshyd N Godrej, Chairman, CII-Sohrabji Godrej Green Business Centre, Mr. B Thiagarajan National Vice Chairman, Indian Green Building Council and Mr. Mahesh Anand, Co-chairman, IGBC Chennai Chapter. As part of the inaugural event, Bharatiya

Vidya Bhavans Atmakuri Ramarao School, (Benefits to Environment), Kendriya Vidyalaya BSF Camp Chhawla, Delhi (Education & Awareness) and Navy Children School, Karwar, Karnataka (Innovation Category) were recognized and awarded as winners for the Green Your School Programme. Founded with a singular motto of instilling a sense of Green amongst young minds, IGBC also initiated a Green Your School Programme for classes starting from 8th to 10th and has been successfully recognizing innovative ideas and initiatives from school children to become a greener nation for the past 17 years. Along with the launch of the new Net Zero Carbon Rating System, IGBC also released updated versions of its existing rating systems for existing buildings, green campuses and green factories. Sharing his view on the newly launched Net Zero Rating System, Mr. Gurmit Singh Arora, Chairman - IGBC & Chairman - Green Building Congress 2023 said "The Government of India over the last two decades has initiated several new missions and policies which support the path towards net zero carbon buildings, cities and nation. The building sector of our country has

an excellent opportunity to take the leadership role for accelerating the uptake of Net Zero. The Green Building Movement in India has been spearheaded by CII's IGBC since 2001, by creating awareness amongst the stakeholders.

Thus far, the Council has been instrumental in enabling 10.42 billion sq.ft. of green building footprint in the country. The Council's activities have enabled a market transformation particularly in the green building materials and technologies. IGBC continuously works to provide tools that facilitate the adoption of green building practices in India. The newly launched Net Zero Rating System is an initiative aimed at facilitating the adoption of Net Zero concepts to support market transformation towards total building sector decarbonization and to accelerate the adoption of Net Zero concepts in the country." Mr. Gurmit Singh Arora further added that "The benefits of this rating system are multifaceted. Beyond supporting India's climate goals through carbon reduction, it encourages resource efficiency, adoption of energy-efficient systems, integration of renewable energy sources, responsible water use, waste

minimization, and climate-resilient building designs. The rating system presents an excellent opportunity for the building sector to lead the adoption of Net Zero practices and facilitate India's transformation into one of the foremost countries achieving Net Zero by 2050." Adding to this, Mr. Ajit Chordia, Chairman, IGBC Chennai Chapter said "We are pleased to host our annual flagship event - Green Building Congress 2023 in Chennai. We are sure this event will significantly contribute to reinforcing India's position as a leader on the global green buildings map. We appreciate the Tamil Nadu government for its efforts towards achieving sustainable goals in the pursuit of moving towards Net Zero waste, water, energy, and carbon. Tamil Nadu's commitment towards the green building movement can be witnessed through many landmark projects such as the IGBC certified buildings - Anna Centenary Library, Chennai Metro Rail Limited, Smart Governance Centre and many more. This three-day conference is set to unearth many innovative modals of achieving Net Zero Carbon future and we are confident that there will be significant takeaways for everyone."

आईजीबीसी ने ग्रीन बिल्डिंग कांग्रेस 2023 में भारत के पहले नेट जीरो कार्बन रेटिंग सिस्टम को लॉन्च किया

मुंबई (उत्तरशक्ति)। सीआईआई की इंडियन ग्रीन बिल्डिंग काउंसिल (आईजीबीसी) ने तमिलनाडु सरकार के साथ साझेदारी में आज शहर में अपने तीन दिवसीय प्रमुख वार्षिक प्रमुख सम्मेलन ग्रीन बिल्डिंग कांग्रेस 2023 का उद्घाटन किया। नेट जीरो कार्बन उत्सर्जन का लक्ष्य प्राप्त करने की दिशा में भारत की यात्रा में प्रमुख सूत्रधार के रूप में आईजीबीसी ने उद्घाटन कार्यक्रम के तहत भारत की पहली 'नेट जीरो कार्बन' रेटिंग सिस्टम की घोषणा की। नेट जीरो पर आईजीबीसी का मिशन शुद्ध शून्य अवधारणा को अपनाए जाने के लिए प्रेरित करते हुए बिल्डिंग सेक्टर (इमारत क्षेत्र) क्षेत्र के कुल डीकाबोर्नाइजेशन की दिशा में बाजार के बदलाव का समर्थन करता है।

आईजीबीसी की तरफ से तैयार किए गए आईजीबीसी नेट जीरो कार्बन रेटिंग सिस्टम के संदर्भ दिशानिर्देशों को इंडियन ग्रीन बिल्डिंग काउंसिल के नेशनल चेयरमैन गुरमीत सिंह अरोड़ा, आईजीबीसी चेन्नई चैप्टर के चेयरमैन अजित चौरड़िया, चेन्नई में पदस्थापित ब्रिटिश उप-

उच्चायुक्त ओलिवर बैलहैट एमबीई, सीआईआई-शोराबजी गोदरेज ग्रीन बिजनेस सेंटर के चेयरमैन जमशेद एन गोदरेज, इंडियन ग्रीन बिल्डिंग काउंसिल के नेशनल वाइस चेयरमैन बी त्यागराजन और आईजीसीबी के चेन्नई चैप्टर के को-चेयरमैन महेश आनंद द्वारा जारी किया गया।

उद्घाटन समारोह में भारतीय विद्या भवन आत्मकुरी रामाराव स्कूल, (पर्यावरण को लाभ), केंद्रीय विद्यालय बीएसएफ कैंप छावला, दिल्ली (शिक्षा और जागरूकता) और कर्नाटक के कारवार स्थित नेवी चिल्ड्रन स्कूल (इनोवेशन श्रेणी) को ग्रीन योर स्कूल प्रोग्राम के लिए विजेता के

तौर पर सम्मानित किया गया। आईजीबीसी की स्थापना इकलौते लक्ष्य युवा मन में हरित या ग्रीन की भावना पैदा करने के उद्देश्य की गई थी, और इसने 8वीं से 10वीं तक की कक्षाओं के लिए ग्रीन योर स्कूल कार्यक्रम की शुरुआत की है। पिछले 17 सालों से यह भारत को एक हरित राष्ट्र बनाने के लिए स्कूली बच्चों के नए व अनूठे विचारों को सफलतापूर्वक सामने लाता रहा है। नेट जीरो कार्बन राशन सिस्टम के लॉन्च के साथ, आईजीबीसी ने मौजूदा इमारतों, ग्रीन कैंपस और ग्रीन फैक्ट्रियों के लिए अपने मौजूदा रेटिंग सिस्टम के अपडेटेड वर्जन को भी जारी किया।

IGBC का नेट जीरो रो कार्बन रेटिंग सिस्टम लांच

नाशिक. सीआईआई की इंडियन ग्रीन बिल्डिंग काउंसिल (आईजीबीसी) ने नेट जीरो कार्बन रेटिंग सिस्टम को लॉन्च किया. आईजीबीसी और ग्रीन बिल्डिंग कांग्रेस 2023 के चेयरमैन गुरमीत सिंह अरोड़ा ने कहा कि केंद्र सरकार ने पिछले दो दशकों में कई नए मिशन और नीतियों की शुरुआत की है, जो नेट जीरो इमारतों, शहरों और राष्ट्र की दिशा में की जा रही

पहल का समर्थन करती है. हमारे देश के भवन क्षेत्र के पास नेट जीरो को आगे बढ़ाने के लिए नेतृत्व की भूमिका निभाने का बेहतरीन अवसर है. सभी संबंधित हितधारकों के बीच जागरूकता फैलाते हुए आईजीबीसी 2001 से देश में ग्रीन बिल्डिंग मूवमेंट का नेतृत्व कर रहा है. नया लॉन्च किया गया नेट जीरो रेटिंग सिस्टम एक ऐसी ही पहल है, जिसका उद्देश्य कुल भवन क्षेत्र डीकार्बोनाइजेशन की दिशा में हो रहे हस्तांतरण को सहयोग देते हुए देश में शून्य शुद्ध उत्सर्जन को अपनाने में तेजी लाने के लिए नेट जीरो अवधारणाओं को अपनाने की सुविधा प्रदान करना है.

Corpn building receives IGBC Platinum rating

Chennai: Greater Chennai Corporation's ICCC Smart Governance Centre on Friday received the 'Platinum' rating under the new Indian Green Building Council (IGBC) rating system. With an impressive score of 89 out of 100, GCC is one of the oldest corporations in the world to construct an end-to-end sustainable government building. The award and certification were received by GCC commissioner Dr. J Radhakrishnan in the presence of Gurmit Singh Arora, IGBC national chairman, B Thiagarajan, IGBC national vice chairman, Ajit Kumar Chordia, IGBC Chennai chairman, and others. Matter of pride: Chennai Corporation's command and control centre receives highest green rating

Vivek Narayanan
@timesgroup.com

Behind the iconic Rippon Building stands the civic body's four storied 24 x 7 integrated command and control aka disaster response centre. A blend of classical and modern architecture, the building that is expected to be inaugurated soon has bagged the Indian Green Building Congress's platinum award on Friday.

By scoring 89 out of 100 points in the new green building rating, the GCC Command Centre becomes the first government building to receive the highest rated IGBC Platinum award.

As one walks past the four-storey Indo Saracenic style Rippon Building, the façade of the white color command center, with its corner arches, attracts attention. Grand porticos on the north and west of the building welcome visitors to the giant edifice.

Spotlessly clean windows that provide adequate protection from sun and rain, as per green building norms, illuminate the rooms. "The view from all the rooms is great. Either they face the Rippon Building or the greenery around the building," said a GCC official.

M. Anand, deputy execu-

GOING GREEN: GCC bagged the award for how they preserve the ecosystem around the command and control centre building

tive director, IGBC, said that the award was provided for its site-related measures, especially how they preserve the ecosystem around the building. "The cement and steel have been made from recyclable content and leave less carbon print. The paint also has a less volatile organic component. Fresh air and daylight flow into the building reducing the heat and thereby power expenditure," he explained.

Explaining the amenities,

a GCC official explained that they have installed 12 KW solar power on Amma Maligai and few other adjacent buildings in the premises to power the command centre. "We have a waterless toilet to save water. The building itself has been designed in such a way to minimize ecological footprint," said the official.

To improve the health and well-being of occupants is a key goal of the building's design, especially considering

the covid-19 pandemic. "There is access to natural light and exterior views, enhanced fresh-air ventilation, non-toxic interior finishes and touch free fixtures, universal access design, greenery inside and outside the building," the official explained.

In terms of energy conservation, the building envelope

has been insulated to keep interior spaces naturally cool and minimize the need for air-conditioning. "Energy efficient systems, devices and equipment have been installed. Sensor based lighting has been introduced," he explained.

J Radhakrishnan, Commissioner, Greater Chennai Corporation, said that the civic body is the one of the oldest corporations in the world, and has been proactive in taking up work to make things environmentally friendly and create healthy spaces for citizens.

"We have adopted a green initiative in our building. We want to lead by example before advising others. I urge all upcoming private and government projects to take up IGBC green ratings. It is a commitment for a sustainable environment. It conserves natural resources for the next generation and improves health and well-being," he said.

GCC's ICCC SMART GOVERNANCE CENTRE BUILDING GETS PLATINUM CERTIFICATION

**DC CORRESPONDENT
CHENNAI, NOV. 26**

The Greater Chennai Corporation's (GCC) - ICCC Smart Governance Centre building received the prestigious platinum certification from the Indian Green Building Council (IGBC) Green New Building Rating System. Dr J Radhakrishnan, Commissioner, GCC, received the award and certification from Gurmit Singh Arora, national chairman, Indian Green Building Council in Chennai. The building received a score of 89 out of 100 points.

Receiving the award and certification at the Green Building Congress 2023 organised by CII's IGBC, Radhakrishnan, said "In

the heart of Tamil Nadu, the GCC stands as one of the world's oldest and most proactive municipal bodies, championing the cause of a greener tomorrow.

He said "the Smart Governance Building has been awarded the prestigious IGBC Platinum rating, standing as a testament to the dedication and commitment of the government in green initiatives. Leading by example is our philosophy, and we urge all upcoming projects, both private and governmental, to embrace the IGBC rating not merely for accolades but as a commitment to a sustainable future. Let us not just speak of sustainability but embody it in our actions, conserving resources for the next gen-

eration and fostering the well-being of all."

Gurmit Singh Arora appreciated the GCC for the commitment to building a truly end-to-end sustainable green structure."

The ICCC Smart Governance Centre, a recent addition to Chennai's skyline, stands as an iconic landmark designed to seamlessly blend traditional elegance with modern architectural innovation. The state-of-the-art building, constructed this year, mirrors the adjacent Ripon Building in its design. Notably, it prioritizes sustainability by incorporating various eco-friendly construction materials, emphasising green cover, and fostering biodiversity to prioritize the well-being of its occupants.

Another feather in GCC's hat

[NT Bureau |
Chennai, Nov 27:

The Greater Chennai Corporation's (GCC) -ICCC Smart Governance Centre has received the prestigious Platinum Certification under the Indian Green Building Council (IGBC) Green New Building Rating System.

A press release said, "With this accolade and an impressive score of 89 out of 100 points, GCC is one of the oldest corporations in the world to construct an end-to-end sustainable government building."

The award and certification was received by J Radhakrishnan, Additional Chief Secretary, Government of Tamil Nadu and Commissioner, Greater Chennai Corporation in the presence of Gurmit Singh Arora, National Chairman, Indian Green Building Council, B Thiagarajan, National Vice Chairman, Indian Green Building Council, Ajit Kumar Chordia, Chairman, Indian

Green Building Council, Chennai Chapter and Arun Awasthy, President and Managing Director, Johnson Controls India.

Radhakrishnan said, "In the heart of Tamil Nadu, the Greater Chennai Corporation stands as one of the world's oldest and most proactive municipal bodies, championing the cause of a greener tomorrow. Beyond the superficiality of greenery, our focus lies in cultivating environmentally friendly and healthier spaces for the citizens of Tamil Nadu. As a proud partner state of the Green Building Congress 2023, we are excited to showcase our commitment to sustainability. Our Smart Governance Building has been awarded the prestigious IGBC Platinum rating, standing as a testament to our dedication. Leading by example is our philosophy, and we urge all upcoming projects, both private and governmental, to embrace the IGBC rating not merely for accolades but as a com-

mitment to a sustainable future. Let us not just speak of sustainability but embody it in our actions, conserving resources for the next generation and fostering the well-being of all. I appreciate CII – IGBC once again for hosting India's largest Conference & Expo, Green Building Congress 2023 at Chennai and I am sure, this event will go a long way in creating awareness among the masses on sustainable living."

B Thiagarajan, National Vice Chairman, Indian Green Building Council, further stated "It is indeed a commendable initiative from the Greater Chennai Corporation and we are truly delighted to be a part of this remarkable journey. I am confident that Greater Chennai Corporation will continue its stride of building end-to-end green buildings and contribute significantly to the increase in the green footprint of Tamil Nadu as well as elevating the green leadership of the state."

சென்னை பெருமாநகராட்சியின் ஸ்மார்ட் கவர்னன்ஸ் சென்டருக்கு ஐஜிபிசின் பிளாட்டினம் விருது

சென்னை:

சென்னை பெருமாநகராட்சியின் ஸ்மார்ட் கவர்னன்ஸ் சென்டர் இந்திய பசுமை கட்டிட கவுன்சிலின் (ஐஜிபிசின்) பசுமை புதிய கட்டிட மதிப்பீட்டு திட்டத்தின் கீழ் மதிப்புமிக்க விருதான பிளாட்டினம் சான்றிதழைப் பெற்றுள்ளது. பசுமையான சுற்றுச்சூழல் மாக இல்லாத நிலையான எதிர்காலத்திற்கான சிறந்த அரசு கட்டிடத்தை கட்டி 100 மதிப்பெண்களுக்கு 89 மதிப்பெண்களை பெற்று சென்னை பெருமாநகராட்சி சிறந்த இடத்தை பிடித்துள்ளது.

இதற்கான விருது மற்றும் சான்றிதழ் இந்திய பசுமை கட்டிட கவுன்சிலின் தேசியத் தலைவர் குர்மித் சிங் அரோரா, தேசிய துணைத் தலைவர் பி. தியாகராஜன், சென்னை மண்டல தலைவர் அஜித் குமார் சோர்டியா மற்றும் ஜான்சன் கன்ட்ரோல்ஸ் இந்தியா தலைவர் மற்றும் நிர்வாக இயக்குனர் அருண் அவ்ந்தி ஆகியோர் முன்னிலையில் சென்னை பெருமாநகராட்சி கமிஷனரும், தமிழக அரசின் கருதல் தலைமை செயலருமான டாக்டர் ராதாகிருஷ்ண ஸ்டீடம் வழங்கப்பட்டது.

இந்திய தொழில் கட்டமைப்பு ஏற்பாடு செய்த பசுமை கட்டிட காக்ரீஸ் 2023 மாநாட்டில் இந்த விருதைப் பெற்றுக் கொண்டு டாக்டர் ராதாகிருஷ்ணன் பேசுவையில், தமிழ்நாட்டின் மையப்பகுதியில், பசுமையான எதிர்காலத்தை வலியுறுத்தி, உலகின் பழமையான மற்றும் சிறப்பாக செயல்படும் மாநகராட்சி அமைப்புகளில் ஒன்றாக சென்னை பெருமாநகராட்சி திகழ்கிறது.

பசுமை என்பதை வாய் அளவில் மட்டுமல்லாமல் செயலள

வில், தமிழக மக்களுக்கு சுற்றுச்சூழல் பாதிப்பில்லாத மற்றும் ஆரோக்கியமான இடங்களை ஏற்படுத்தித் தர வேண்டும் என்பதில் நாங்கள் அதிக கவனம் செலுத்தி வருகிறோம். பசுமை கட்டிட காக்ரீஸ் 2023 உடன் தமிழகம் இணைந்து பணியாற்றுவது குறித்து நாங்கள் மிகுந்த மகிழ்ச்சி அடைகிறோம்.

தமிழகத்தை சுற்றுச்சூழல் மாசற்ற மாநில உருவாக்க வேண்டும் என்பதில் நாங்கள் முனைப்புடன் செயலாற்றி வருகிறோம். இந்த விருது எங்கள் அர்ப்பணிப்

புக்கு கிடைத்த சான்றாகும். இந்தியாவில் முன்னோடி மாநிலமாக இருக்க வேண்டும் என்பதில் மிகுந்த கவனம் செலுத்தி வருகிறோம். வரும் காலங்களில் இந்திய பசுமை கட்டிட கவுன்சிலின் விருதுக்காக மட்டுமல்லாமல் நிலையான எதிர்காலத்திற்கான அனைத்து திட்டங்களையும் அரசு மற்றும் தனியார் நிறுவனங்கள் மேற்கொள்ள வேண்டும்.

நிலைத்தன்மையைப் பற்றி வாய் அளவில் மட்டும் பேசாமல் எதிர்கால சந்ததியினருக்கான இயற்கை வளங்களைப் பாதுகாத்து, அனைவரின் நல்வாழ்விற்கும் நாம் உறுதுணையாக இருக்க வேண்டும். இந்தியாவின் மிகப் பெரிய 'பசுமை கட்டிட காக்ரீஸ் 2023' மாநாடு மற்றும் கண்காட்சியை சென்னையில் நடத்தியதற்காக இந்திய தொழில் கட்டமைப்பு மற்றும் இந்திய பசுமை கட்டிட கவுன்சிலுக்கு எனது பாராட்டுகளை மீண்டும் ஒருமுறை தெரிவித்துக் கொள்கிறேன். சுற்றுச்சூழல் மாக இல்லாத நிலையான எதிர்காலம் குறித்த விழிப்புணர்வை மக்களிடையே ஏற்படுத்த இந்த திகழ்ச்சி பெரிதும் உதவும் என்று நான் நம்புகிறேன் என்று தெரிவித்தார்.

ग्रीन बिल्डिंग मूवमेंट सीआईआई-आईजीबीसी का साथ देगी राज्य सरकार

चेन्नई @ पत्रिका. सीआईआई-ग्रीन बिल्डिंग कांग्रेस 2023 के तहत तीन दिवसीय सम्मेलन और प्रदर्शनी का समापन शनिवार को हो गया। तीसरे दिन आयोजित सत्र में आईजीबीसी ने प्रमुख हरित उत्पादों और प्रौद्योगिकियों को प्रदर्शित करने के लिए विशेष कार्यक्रम की भी मेजबानी की, जिसका उद्देश्य संबंधित सेक्टर में इनोवेशन को बढ़ावा देना, निवेश को प्रोत्साहित करना और सतत विकास को प्रेरित कर रीयल एस्टेट परिदृश्य को नया आयाम देना है। इस अवसर पर इंडियन ग्रीन बिल्डिंग काउंसिल के राष्ट्रीय अध्यक्ष गुरमित सिंह अरोड़ा ने कहा, ग्रीन बिल्डिंग

कॉन्सेप्ट को अपनाने और इसे आगे बढ़ाने के लिए लोगों को जागरूक करना अत्यंत महत्वपूर्ण है। उन्होंने कहा आईजीबीसी के प्रयास भारत में ग्रीन बिल्डिंग मूवमेंट को आगे बढ़ाने में अहम भूमिका अदा कर रहे हैं।

ग्रीन बिल्डिंग मूवमेंट सिर्फ शहरों तक सीमित नहीं रहे बल्कि देश के ग्रामीण हिस्से तक भी पहुंचे। इस लक्ष्य को सामने रखते हुए आईजीबीसी ने अनेक रेटिंग सिस्टम लागू किए हैं। ये रेटिंग सिस्टम विभिन्न तरह के बिल्ट एनवॉयर्नमेंट की जरूरतों को ध्यान में रखते हुए बनाए गए हैं।

CHENNAI: More than 3,000 public toilets in the city, including the ones in Marina Beach, may get a swanky new look with natural lighting and odour-free interiors, starting next year. And, customers may not have to pay to use them.

The improvements are planned as the Greater Chennai Corporation is trying to get a green rating for these toilets from the Indian Green Building Council (IGBC).

The GCC, through its consultant RSB Arch Project consultants, has approached the IGBC for a green rating for 3,270 toilets in 370 locations across Royapuram (zone 5), Thiru Vi Ka Nagar (zone 6), and Teynampet (zone 9).

பசுமை கட்டட சான்றிதழ்; வீடுகளுக்கும் பெறலாம்

பதிவு செய்த நாள்: நவ 16, 2023 00:34

சென்னை: குறைந்த பரப்பளவில் கட்டப்படும் தனி வீடுகளுக்கு, எளிதாக பசுமை கட்டட சான்றிதழ் பெறுவதற்கான புதிய நடைமுறையை, இந்திய பசுமை கட்டடங்கள் கவுன்சிலான ஐ.ஜி.பி.சி., அறிமுகப்படுத்தி உள்ளது.

இது தொடர்பாக, இந்திய பசுமை கட்டடங்கள் கவுன்சிலின் சென்னை கிளை தலைவர் அஜீத்குமார் சோர்டியா, இணை தலைவர் மகேஷ் ஆனந்த் ஆகியோர் கூறியதாவது:

நாட்டில் தற்போதைய நிலவரப்படி, 11,000த்துக்கு மேற்பட்ட பசுமை கட்டடங்கள் கட்டப்பட்டுள்ளன. இதன் மொத்த பரப்பு, 1,022 கோடி சதுர அடியாக உள்ளது.

தற்போதைய நிலவரப்படி, 8 வகை பயன்பாட்டில் உள்ள கட்டடங்களுக்கு, 31 நிலைகளில் பசுமை கட்டட சான்றிதழ்கள் வழங்கப்படுகின்றன.

அலுவலகங்கள், அடுக்குமாடி குடியிருப்புகள், மருத்துவமனை மட்டுமல்லாது, தற்போது பள்ளிகள், வீடுகள், ஏற்கனவே கட்டப்பட்ட அடுக்குமாடி குடியிருப்புகள், வழிபாட்டு இடங்கள் ஆகியவற்றுக்கும் பசுமை கட்டட சான்று வழங்கப்படுகிறது.

இந்த வகையில், சென்னை சென்ட்ரல் ரயில் நிலைய பிரதான கட்டடத்துக்கு, சில மாதங்கள் முன், பசுமை கட்டட சான்றிதழ் வழங்கப்பட்டது. பசுமை கட்டடங்களை அதிகரிக்க, தமிழக அரசு பல்வேறு விதிமுறைகளை அறிமுகப்படுத்தி வருகிறது.

CII, IGBC Launch IGBC Nest to Slash Home Energy Costs by 20-30%

© 16 Nov 2023 CW Team

The Confederation of Indian Industry (CII) and the Indian Green Building Council (IGBC) have collaboratively launched the IGBC Nest program. This initiative aims to help individual homeowners reduce their energy costs by 20-30%.

The IGBC Nest program offers a comprehensive energy management approach that incorporates energy-efficient measures, renewable energy integration, and smart home solutions. With the housing sector's rising carbon footprint, this program presents an opportunity for homeowners to contribute to sustainable development.

CII and IGBC aim to empower homeowners with the necessary tools and knowledge to make informed decisions about their energy consumption. By adopting energy-efficient practices, homeowners can significantly reduce their energy bills while minimizing their impact on the environment.

The IGBC Nest program provides homeowners with access to expert guidance and resources. These include energy audits, customized retrofitting solutions, and technology-enabled energy management systems. By leveraging these offerings, homeowners can identify energy-saving opportunities and implement effective measures to optimize their energy usage.

The Confederation of Indian Industry and Indian Green Building Council have come together to launch IGBC-Nest to the individual housing sector, aimed at controlling and limiting carbon emissions, an industry official said here on Wednesday.

IGBC has launched a framework specifically developed for residential units to build green homes that control and limit carbon emissions.

'IGBC Nest' is a first-of-its-kind eco-friendly, self-developed framework and certification that aims to bring awareness and drive the individual owners to build a sustainable home with no or meager additional cost," CII-IGBC said in a press release.

The initiative encourages the house owners to adopt green measures that are simple and have impacts on addressing resource efficiency and occupant's health and well-being.

Green rating for Chennai public toilets?!

Chennai, Nov 15 (IANS) Have you heard of green rating for public toilets? Well, the RSB group that would build, operate and maintain 372 public toilets here has applied for green rating of the toilets with the Indian Green Building Council (IGBC), said a top group official.

He added that it is for the first time in the country an application is made for green rating of public toilets.

"We have applied for a green rating of the public toilets with IGBC under their service building category. We are confident of getting the Gold rating for the public toilets," Dr R.Suresh Babu, Managing Director, DRRSB PCT One Private Ltd told IANS.

The company has bagged the tender to build/upgrade, operate, and maintain 372 public toilets here from the Greater Chennai Corporation (GCC).

"The public toilets will range between 200 sq.ft and 4,000 sq.ft depending on the place they are located. We will be having solar panels for power, sensors for detecting even the bad odour in the toilets. The toilets will be differently abled, friendly, airy and have good lighting arrangements," Babu said.

He said from January 2024 onwards, the toilets allotted to the company will be functional.

According to Babu, there will be a total of 3,270 seats in the 372 toilets. Out of the total, 90 toilets will be newly built with 1,000 seats.

Green rating for Chennai public toilets?!

📅 Wed, Nov 15 2023 04:47:17 PM

Chennai, Nov 15 (IANS): Have you heard of green rating for public toilets? Well, the RSB group that would build, operate and maintain 372 public toilets here has applied for green rating of the toilets with the Indian Green Building Council (IGBC), said a top group official.

He added that it is for the first time in the country an application is made for green rating of public toilets.

"We have applied for a green rating of the public toilets with IGBC under their service building category. We are confident of getting the Gold rating for the public toilets," Dr R.Suresh Babu, Managing Director, DRRSB PCT One Private Ltd told IANS.

IGBC Green Building Congress to kick start on Nov 23 in Chennai

Chennai, Nov 15 (IANS) The three day IGBC Green Building Congress 2023 that will kick start on November 23 here will see about 150 speakers-domestic and international- and over 500 green products, technologies being showcased, said officials.

The flagship event is set to take place in the city after ten years from 23rd November 2023 to 25th November 2023 with the theme 'Advancing Net Zero Through Decarbonisation.'

IGBC's Green Building Congress 2023, the only event in India that is supported by The World Green Building Council (World GBC), and 20 different countries' Green Building Councils across the world.

Set up by the industry body Confederation of Indian Industry (CII), the Indian Green Building Council (IGBC) on Wednesday said it has come out with a new initiative –IGBC Nest- for green certification of individual houses.

Officials said some housing finance companies are lending at a lower rate if the dwelling is certified as green building.

CII-IGBC unveil 'IGBC-Nest' for individual homeowners to reduce energy cost by 20-30%

Chennai, Nov 15 (PTI) The Confederation of Indian Industry and Indian Green Building Council have come together to launch IGBC-Nest to the individual housing sector, aimed at controlling and limiting carbon emissions, an industry official said here on Wednesday.

The move was toward achieving the country's net zero goal by 2070.

'Our mission is to ensure every building in India is a green building that will not only uplift the economic status of every homeowner but also increase life expectancy with better health benefits. IGBC's Nest framework and certification has been developed specifically for the individual homeowners to help them reduce energy cost by 20-30 per cent and reduce water requirements by 30-50 per cent,' IGBC Chennai chapter Chairman Ajit Kumar Chordia said in a press release.

'We foresee this initiative playing a significant role in building a green India not for this generation but for future generations as well,' he said.

The IGBC Nest framework throws light on water and energy efficiency besides harnessing solar energy.

From a time when going green implied shelling out a premium on green-friendly material, the green building movement has reached a stage where green material is so widespread that over 95 per cent of the green rated material is available at affordable prices.

"With a green building footprint of 10.42 billion sq ft, and with over 11,000 projects conforming to Indian Green Building Council's 34 rating systems, the green building movement in India has taken off," C Shekar Reddy, Chairman of IGBC (Hyderabad Chapter) and CII (Telangana Chapter), has said.

IGBC now has a network of 29 local chapters across the country, with about 7,000 accredited professionals (IGBC-APs), and 360+ student chapters.

IGBC seeks to play a major role in cutting down dust pollution at construction sites

After facilitating sustainable practices in reducing environmental impacts in buildings, the Indian Green Building Council (IGBC) is keen on promoting construction management tools and systems for the construction sector to cut down dust pollution which has become a serious issue across the country.

Referring to air pollution issues that have taken place in various parts of the country, especially in Northern India and also the West now, Jamshyd N Godrej, Chairman, CII-Sohrabji Godrej Green Business Centre said that the building sector would have to do some major introspection about how to manage dust that comes out of various sites – not just buildings, but also roads and the entire infrastructure sites.

'Tamil Nadu will reach net zero target by 2060', says Industries Minister TRB Rajaa

He was speaking at a three-day annual flagship conference — Green Building Congress 2023 — hosted by CII's IGBC and the state government.

CHENNAI: The Indian Green Building Council announced India's first 'net zero carbon' rating system to support the market's transformation towards total decarbonisation of the building sector.

"The rating is designed to encourage the use of low-embodied carbon materials, optimise the buildings' performance using passive features, and use of on-site and off-site renewable energy systems to reduce or off-set the carbon emissions associated with the buildings," said Gurmit Singh Arora, Chairman of Indian Green Building Council (IGBC).

Plea to TN Govt to remove cap on rooftop solar & surcharge on green power purchase

Updated - November 24, 2023 at 06:47 PM. | Chennai

Presently, the regulation allows only 85 per cent of the sanctioned demand capacity of rooftop solar can be installed

Indian Green Building Council (IGBC) has requested the Tamil Nadu government to remove the cap on rooftop solar capacity and reduce charges on the purchase of green energy in order to promote net zero building in the State

Though Tamil Nadu is at the forefront of promoting green buildings and renewable energy, some of the challenges about green energy could be addressed by increased consumption of renewable energy in buildings and built environment, pointed out Gurmit Singh Arora, Chairman, IGBC.

He requested the Tamil Nadu government to remove the cap on the capacity of rooftop solar on commercial or residential buildings. Presently, the regulation allows only 85 per cent of the sanctioned demand capacity of rooftop solar can be installed. "We would request the government to consider 100 per cent of the capacity, he added.

TN Aims To Achieve Net Zero Emissions 10 Years Earlier Than 2070 Target

Chennai, Nov 24 (KNN) Tamil Nadu is working to become the first state to achieve net zero emission at least a decade ahead of 2070, said Minister for Industries T.R.B. Rajaa.

"As a State that is adding value to the idea of India, we would definitely want to be a [leading] State when it comes to using renewable and sustainable materials in construction," the Minister said.

Speaking at the Green Building Congress 2023 event organised by the Confederation of Indian Industry's (CII) IGBC, the Minister expressed the government's openness to ideas.

"We request the Indian Green Building Council (IGBC) and the stakeholders present here to bring ideas to enable the State to become much more sustainable," he said.

He further said that the state government will ensure that all the requests from the industry are heard and rapid action is taken, and see how change can be brought about.

"We would also ensure that we build greener buildings. At the pace in which Tamil Nadu's economy is growing, we intend to take the greenest route possible," the Minister said.

IGBC Unveils New Green Rating Tools For The Construction Sector

The Confederation of Indian Industry (CII) established the Indian Green Building Council (IGBC) in 2001 to promote the concept of green buildings in India. As part of its net zero mission to accelerate the adoption of green building projects nationwide, IGBC has introduced innovative green rating tools.

The new green rating tools were unveiled at the Indian Green Building Congress in Chennai from November 23–25, 2003. These tools include the Net Zero Carbon Rating and upgraded rating systems: Green Existing Building Rating Version 1.0, Green Factory Rating Version 2.0, and Green Campus Rating Version 1.0.

Chennai, November, 2023: The Greater Chennai Corporation's (GCC) -ICCC Smart Governance Centre today received the prestigious Platinum Certification under the Indian Green Building Council (IGBC) Green New Building Rating System. With this accolade and an impressive score of 89 out of 100 points, GCC is one of the oldest corporations in the world to construct an end-to-end sustainable government building. The award and certification was received by **Dr. J Radhakrishnan, I.A.S, Additional Chief Secretary, Government of Tamil Nadu and Commissioner, Greater Chennai Corporation** in the presence of **Mr. Gurmit Singh Arora, National Chairman, Indian Green Building Council, Mr. B Thiagarajan, National Vice Chairman, Indian Green Building Council, Mr. Ajit Kumar Chordia, Chairman, Indian Green Building Council, Chennai Chapter and Mr. Arun Awasthy, President and Managing Director, Johnson Controls India.**

Receiving the award and certification at the Green Building Congress 2023 organized by CII's IGBC, **Dr. J Radhakrishnan, I.A.S, Additional Chief Secretary, Government of Tamil Nadu and Commissioner, Greater Chennai Corporation**, said "In the heart of Tamil Nadu, the Greater Chennai Corporation stands as one of the world's oldest and most proactive municipal bodies, championing the cause of a greener tomorrow. Beyond the superficiality of greenery, our focus lies in cultivating environmentally friendly and healthier spaces for the citizens of Tamil Nadu. As a proud partner state of the Green Building Congress 2023, we are excited to showcase our commitment to sustainability. Our Smart Governance Building has been awarded the prestigious IGBC Platinum rating, standing as a testament to our dedication. Leading by example is our philosophy, and we urge all upcoming projects, both private and governmental, to embrace the IGBC rating not merely for accolades but as a commitment to a sustainable future. Let us not just speak of sustainability but embody it in our actions, conserving resources for the next generation and fostering the well-being of all. I appreciate CII - IGBC once again for hosting India's largest Conference & Expo, Green Building Congress 2023 at Chennai and I am sure, this event will go a long way in creating awareness among the masses on sustainable living."

Adding to this, **Mr. Gurmit Singh Arora, Chairman - Indian Green Building Council**, "I extend my heartfelt appreciation to the Greater Chennai Corporation for their exemplary commitment to building a truly end-to-end sustainable green structure."

Mr. B Thiagarajan, National Vice Chairman, Indian Green Building Council, further stated "It is indeed a commendable initiative from the Greater Chennai Corporation and we are truly delighted to be a part of this remarkable journey. I am confident that Greater Chennai Corporation will continue its stride of building end-to-end green buildings and contribute significantly to the increase in the green footprint of Tamil Nadu as well as elevating the green leadership of the state."

ICC's ICCC Smart Governance Centre- Key Features

- Spanning across 51,338, sq.ft, GCC's Smart Governance Centre was constructed this year.
- Designed to be yet another iconic landmark of Chennai, the building mirrors the the adjoining Ripon Building in design to blend traditional elegance with modern architectural ingenuity

Recognition for Telangana industrial infrastructure corporation's push for green projects

The Indian Green Building Council (IGBC) has recognised Telangana State Industrial Infrastructure Corporation (TSIIC) for developing 1,122 million sq.ft. of green built environment through 736 registered projects.

The recognition, in the form of an award conferred during the Green Building Congress 2023 organised by the IGBC in Chennai, came in the backdrop of the State government's efforts, as well as an MoU between the TSIIC and the IGBC, to develop green buildings in Telangana and incentivise green building rating systems for renovation and retrofitting projects.

TSIIC vice-chairman and MD E.V. Narsimha Reddy, who received the award under the category 'State government encouraging green building movement in India through multi-pronged approach', said the recognition reaffirmed their commitment to creating a greener future. "The TSIIC takes immense pride in being a role model [and in] fostering eco-friendly practices and setting new benchmarks in the realm of industrial infrastructure."

Chennai Metro Awarded with the Green Champion Award

CHENNAI (Metro Rail News): CMRL has been conferred the Green Champion Award, one of the highest honours bestowed by the Indian Green Building Council (IGBC) for leading the green MRTS movement in India. The award ceremony occurred on 24th November 2023 as part of the "Green Building Congress," IGBC's flagship conference and expo on the Green Built Environment, held at the Chennai Trade Centre. Thiru. T. Archunan, Director (Projects), CMRL, received the prestigious award on behalf of the organisation.

It may be recalled that CMRL has recently been given international recognition for its continued and committed pro-environment initiatives in all its activities. The Green Apple Award 2023 – Gold was conferred by The Green Organization, London, United Kingdom, last week on 20th November 2023 in an award ceremony held in London. Earlier this year, in an award ceremony held in April 2023 in Miami, the USA, CMRL received the Green Champion Award 2023 – Silver for the Environmental Best Practice "Carbon Reduction" category.

Leading Industry Giants Unveil Cutting-Edge Green Products at IGBC's Green Building Congress 2023

Chennai, November 25, 2023: The Green Building Congress 2023, an annual flagship conference on Green Built Environment organized by Indian Green Building Council today successfully came to conclusion in the city. As part of the sessions organized on day 3, IGBC also hosted an exclusive event to showcase key green products and technologies, which were recently launched by the companies across industry sectors like paint, glass, cooling systems, valves and more. The three day event witnessed participation of several thousands including professionals and homeowners.

Nippon Paint, Saint Gobain, Lehry Valves, Johnson Controls, and Vertiv, renowned leaders driving sustainable solutions in their respective domains, came together to showcase their latest innovations for the adoption of green built environment at the Indian Green Building Council's Green Building Congress 2023. This three-day annual event, set to be a milestone in the sustainability calendar, brings together experts, innovators, and industry leaders to explore and promote environmentally conscious practices in construction and design.

Plea to TN Govt to remove cap on rooftop solar & surcharge on green power purchase

Updated - November 24, 2023 at 04:07 PM, | Chennai

Presently, the regulation allows only 85 per cent of the sanctioned demand capacity of rooftop solar can be installed

Indian Green Building Council (IGBC) has requested the Tamil Nadu government to remove the cap on rooftop solar capacity and reduce charges on the purchase of green energy in order to promote net zero building in the State

Though Tamil Nadu is at the forefront of promoting green buildings and renewable energy, some of the challenges about green energy could be addressed by increased consumption of renewable energy in buildings and built environment, pointed out Gurmit Singh Arora, Chairman, IGBC.

He requested the Tamil Nadu government to remove the cap on the capacity of rooftop solar on commercial or residential buildings. Presently, the regulation allows only 85 per cent of the sanctioned demand capacity of rooftop solar can be installed. "We would request the government to consider 100 per cent of the capacity, he added.

TN Aims To Achieve Net Zero Emissions 10 Years Earlier Than 2070 Target

Chennai, Nov 24 (KNN) Tamil Nadu is working to become the first state to achieve net zero emission at least a decade ahead of 2070, said Minister for Industries T.R.B. Rajaa.

"As a State that is adding value to the idea of India, we would definitely want to be a [leading] State when it comes to using renewable and sustainable materials in construction," the Minister said.

Speaking at the Green Building Congress 2023 event organised by the Confederation of Indian Industry's (CII) IGBC, the Minister expressed the government's openness to ideas.

"We request the Indian Green Building Council (IGBC) and the stakeholders present here to bring ideas to enable the State to become much more sustainable," he said.

He further said that the state government will ensure that all the requests from the industry are heard and rapid action is taken, and see how change can be brought about.

"We would also ensure that we build greener buildings. At the pace in which Tamil Nadu's economy is growing, we intend to take the greenest route possible," the Minister said.

IGBC Unveils New Green Rating Tools For The Construction Sector

The Confederation of Indian Industry (CII) established the Indian Green Building Council (IGBC) in 2001 to promote the concept of green buildings in India. As part of its net zero mission to accelerate the adoption of green building projects nationwide, IGBC has introduced innovative green rating tools.

The new green rating tools were unveiled at the Indian Green Building Congress in Chennai from November 23–25, 2003. These tools include the Net Zero Carbon Rating and upgraded rating systems: Green Existing Building Rating Version 1.0, Green Factory Rating Version 2.0, and Green Campus Rating Version 1.0.

Chennai, November, 2023: The Greater Chennai Corporation's (GCC) -ICCC Smart Governance Centre today received the prestigious Platinum Certification under the Indian Green Building Council (IGBC) Green New Building Rating System. With this accolade and an impressive score of 89 out of 100 points, GCC is one of the oldest corporations in the world to construct an end-to-end sustainable government building. The award and certification was received by **Dr. J Radhakrishnan, I.A.S, Additional Chief Secretary, Government of Tamil Nadu and Commissioner, Greater Chennai Corporation** in the presence of **Mr. Gurmit Singh Arora, National Chairman, Indian Green Building Council, Mr. B Thiagarajan, National Vice Chairman, Indian Green Building Council, Mr. Ajit Kumar Chordia, Chairman, Indian Green Building Council, Chennai Chapter and Mr. Arun Awasthy, President and Managing Director, Johnson Controls India.**

Receiving the award and certification at the Green Building Congress 2023 organized by CII's IGBC, **Dr. J Radhakrishnan, I.A.S, Additional Chief Secretary, Government of Tamil Nadu and Commissioner, Greater Chennai Corporation**, said "In the heart of Tamil Nadu, the Greater Chennai Corporation stands as one of the world's oldest and most proactive municipal bodies, championing the cause of a greener tomorrow. Beyond the superficiality of greenery, our focus lies in cultivating environmentally friendly and healthier spaces for the citizens of Tamil Nadu. As a proud partner state of the Green Building Congress 2023, we are excited to showcase our commitment to sustainability. Our Smart Governance Building has been awarded the prestigious IGBC Platinum rating, standing as a testament to our dedication. Leading by example is our philosophy, and we urge all upcoming projects, both private and governmental, to embrace the IGBC rating not merely for accolades but as a commitment to a sustainable future. Let us not just speak of sustainability but embody it in our actions, conserving resources for the next generation and fostering the well-being of all. I appreciate CII - IGBC once again for hosting India's largest Conference & Expo, Green Building Congress 2023 at Chennai and I am sure, this event will go a long way in creating awareness among the masses on sustainable living."

Adding to this, **Mr. Gurmit Singh Arora, Chairman - Indian Green Building Council** "I extend my heartfelt appreciation to the Greater Chennai Corporation for their exemplary commitment to building a truly end-to-end sustainable green structure."

Mr. B Thiagarajan, National Vice Chairman, Indian Green Building Council, further stated "It is indeed a commendable initiative from the Greater Chennai Corporation and we are truly delighted to be a part of this remarkable journey. I am confident that Greater Chennai Corporation will continue its stride of building end-to-end green buildings and contribute significantly to the increase in the green footprint of Tamil Nadu as well as elevating the green leadership of the state."

GCC's ICCC Smart Governance Centre- Key Features

- Spanning across 51,338, sq.ft, GCC's Smart Governance Centre was constructed this year.
- Designed to be yet another iconic landmark of Chennai, the building mirrors the the adjoining Ripon Building in design to blend traditional elegance with modern architectural ingenuity

Recognition for Telangana industrial infrastructure corporation's push for green projects

The Indian Green Building Council (IGBC) has recognised Telangana State Industrial Infrastructure Corporation (TSIIC) for developing 1,122 million sq.ft. of green built environment through 736 registered projects.

The recognition, in the form of an award conferred during the Green Building Congress 2023 organised by the IGBC in Chennai, came in the backdrop of the State government's efforts, as well as an MoU between the TSIIC and the IGBC, to develop green buildings in Telangana and incentivise green building rating systems for renovation and retrofitting projects.

TSIIC vice-chairman and MD E.V. Narsimha Reddy, who received the award under the category 'State government encouraging green building movement in India through multi-pronged approach', said the recognition reaffirmed their commitment to creating a greener future. "The TSIIC takes immense pride in being a role model [and in] fostering eco-friendly practices and setting new benchmarks in the realm of industrial infrastructure."

Chennai Metro Awarded with the Green Champion Award

CHENNAI (Metro Rail News): CMRL has been conferred the Green Champion Award, one of the highest honours bestowed by the Indian Green Building Council (IGBC) for leading the green MRTS movement in India. The award ceremony occurred on 24th November 2023 as part of the "Green Building Congress," IGBC's flagship conference and expo on the Green Built Environment, held at the Chennai Trade Centre. Thiru. T. Archunan, Director (Projects), CMRL, received the prestigious award on behalf of the organisation.

It may be recalled that CMRL has recently been given international recognition for its continued and committed pro-environment initiatives in all its activities. The Green Apple Award 2023 – Gold was conferred by The Green Organization, London, United Kingdom, last week on 20th November 2023 in an award ceremony held in London. Earlier this year, in an award ceremony held in April 2023 in Miami, the USA, CMRL received the Green Champion Award 2023 – Silver for the Environmental Best Practice "Carbon Reduction" category.

Leading Industry Giants Unveil Cutting-Edge Green Products at IGBC's Green Building Congress 2023

Chennai, November 25, 2023: The Green Building Congress 2023, an annual flagship conference on Green Built Environment organized by Indian Green Building Council today successfully came to conclusion in the city. As part of the sessions organized on day 3, IGBC also hosted an exclusive event to showcase key green products and technologies, which were recently launched by the companies across industry sectors like paint, glass, cooling systems, valves and more. The three day event witnessed participation of several thousands including professionals and homeowners.

Nippon Paint, Saint Gobain, Lehry Valves, Johnson Controls, and Vertiv, renowned leaders driving sustainable solutions in their respective domains, came together to showcase their latest innovations for the adoption of green built environment at the Indian Green Building Council's Green Building Congress 2023. This three-day annual event, set to be a milestone in the sustainability calendar, brings together experts, innovators, and industry leaders to explore and promote environmentally conscious practices in construction and design.
